

CWCT AGM and Members' Meeting

Tuesday, 22 September 2015

Directors' Suite, The Science Museum, Exhibition Road, London, SW7 2DD

Responsible sourcing and the chain of custody of facades

The environmental credentials of our buildings have never been under greater scrutiny. The amount of energy that a building consumes in use are all included in established assessment methodologies. Now greater focus is on the materials used. Where have they come from? Have they been sourced in a safe, ethical and sustainable way? How can we trace where the different materials used have come from, and what processes they have been through? How have different industries responded to these new demands?

PROGRAMME

09.30	Registration	<i>Coffee will be served.</i>
10.00	AGM	Geoff Mann, Geoff Mann Architects Richard White, Baker Tilly David Metcalfe, CWCT
10.30	Introduction	Jane Thornback, Construction Products Association
11.00	Improving the certainty of outcomes – project briefing	Nick Shears, Skanska
