

ML-30HD

HYBRID VACUUM VALVE AMPLIFIER

MAIN FEATURES

- MM Phono, Bluetooth 4.0, USB DAC and line inputs
- 2x 30W Power Output
- Hi-Res Audio
- Speaker and Preamp Outputs

The ML-30HD stereo amplifier takes something old and something blue to create a tech marriage made in audio heaven. Uniting hybrid valve amplification – also known as tube amplification – with Bluetooth wireless connectivity music fans get wonderful sound together with music streaming convenience.

The Steljes Audio ML-30HD hybrid valve integrated amplifier perfectly implements the classic valve design to deliver a warm, rich sound, perfectly suited to today's digital music files. The inclusion of Bluetooth technology means it can wirelessly stream music from a paired device,

enabling both convenience and quality – often an all too rare pairing.

With more than enough power to drive today's efficient loudspeaker designs, the ML-30HD also offers a headphone output for discreet listening. Its in-built USB DAC (accredited by the Japan Hi Res Audio Society) lets you get the best from music stored on laptops and computers, while the moving magnet phono stage means you can hook-up a turntable and spin your vinyl, too. This is one seriously well-equipped amplifier.

If you are looking for a bit of kit to leave you feeling warm all over, the ML-30HD is the perfect partner.

Beautifully engineered & designed in Great Britain

ML-30HD

SPECIFICATIONS

Power Output : 30W x 2

Frequency Response : 20Hz-50kHz

Harmonic Distortion : 0.01%

LINE Gain : 32dB

Phono Gain : 72dB

Input Impedance : 80 kOhms

Output Impedance : 4 Ohms - 8 Ohms

Phono Impedance : 47 kOhms

Headphone Impedance : 32 Ohms - 160 Ohms

USB DAC : 24Bit 96kHz

Inputs: MM Phono, Bluetooth 4.0, USB DAC, LINE

Output: Preamp, Speaker

External Power Supply: AC100V-264V/50-60Hz

Valve : 6N3

Dimensions : 120mm x 260mm x 210mm H x W x D

Net Weight : 2.4Kg

Units 8 and 9 Wern Trading Estate, Newport, NP10 9FQ | Tel. +44 (0) 1633 895918 | Email. info@steljesaudio.co.uk
