## **1** SPECIFICATION

Unit model:XXXXXX WIFI Module Model: EU-OSK103/US-OSK103 Standard: IEEE 802. 11b/g/n Antenna Type: Printed PCB Antenna Frequency : WLAN 2400~2483.5 MHz Operation Temperature:0°C~45°C/32°F~113°F Operation Humidity: 10%~85% Power Input: DC 5V/300mA Maximum Transmitted Power: 19.8dBm Max

## 2 PRECAUTIONS

### • Applicable system: iOS, Android.

- Please keep you APP up to date with the latest version.

Due to special situation may be occurred, we explicitly claims below: Not all of the Android and iOS system are compatible with APP. We will not be responsible for any issue as a result of the incompatibility.

### Wireless safety strategy

Smart kit only support WPA-PSK/WPA2-PSK encryption and none encryption. WPA-PSK/WPA2-PSK encryption is recommended.

### Cautions

- Due to different network situation, control process may return time-out sometimes. If this situation occurs, the display between board and APP may not be the same, please do not feel confused.
- Smart Phone camera needs to be 5 million pixels or above to make sure scan QR code well.
- Due to different network situation, sometimes, request time-out could happen, thus, it is necessary to do network configuration again.
- The APP system is subject to update without prior notice for product function improvement. The actual network configuration process may be slightly different from the manual, the actual process shall prevail.
- Please Check The Service Website For More information.

## **3** DOWNLOAD AND INSTALL APP

**CAUTION:** The following QR code is only available for downloading APP. It is totally different with the QR code packed with unit.

Android

iOS

Scan QR code to download the "Midea Air " APP or get it from Google play and app store by manually searching.

- Please ensure your mobile device is connected to Wi-Fi/Wireless router. Also, the Wi-Fi/Wireless router has already connected to Internet before doing user registration and network configuration.
- It is better to log in your email box and active your registration account by clicking link in case you forget the password. You can log in with the third partyaccounts.

## 6 HOW TO USE APP

Please ensure both your mobile device and dehumidifier are connected to the Internet before using app to control the dehumidifier via internet, please follow the next steps:

+

1 Click " Login "

(2) Choose the Dehumidifier.

(3) Make sure the Bucket is not full and place it in right position.

From left to the right, these icons means Power, Fan, Continuous, Auto Dehumidification, Dryer, Anti-mould and Pure.

1. Power

Click Power icon to turn on/off humidifier.

2. Fan mode

Click Fan icon to activate high ,med(on some models),low fan speed.

Continuous mode

Click Continuous icon to activate. Press again to deactivate.

4. Auto dehumidification mode(on some models)

Click Auto dehumidification icon to activate. Press again to deactivate.

5. Drver/Max mode(on some models)

Click Dryer/Max icon to activate. Press again to deactivate.

6. Anti-mould mode(on some models)

Click Anti-mould icon to activate. Press again to deactivate.

FILL LEVEL Operation(on some models)

Bucket capacity can be selected in four levels-1, 2, 3 and 4.

NOTE: When select FILL LEVEL Operation, the APP can dispaly the water tank full time and the current water. It may be slight different during the actual operation. The diaplay is used for reference only.

8. Pure mode(on some models)

Click Pure icon to activate. Press again to deactivate.

9. Humidity control.

The range of humidity is 35%RH-85%RH. User can add humitidy by clockwise adjusting the white pointer. Similarly, user can minus humidity by anticlockwise adjusting the white pointer. The yellow pointer means current indoor humidity.

## 8 APP DECLARATION

#### CAUTIONS: CONTAINS FCC ID: 2ADQOMDNA19 CONTAINS IC : 12575A-MDNA19

This device complies with Part 15 of the FCC Rules and Industry Cannad's licence-exempt RSSs.

Operation is subject to the following two conditions:

- (1)This device may not cause interference;
- (2)This device must accept any interference, including interference that may cause undesired operation of the device.

Only operate the device in accordance with the instructions supplied.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- --Reorient or relocate the receiving antenna.
- --Increase the separation between the equipment and receiver.
- --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- --Consult the dealer or an experienced radio/TV technician for help.

Company will not be liable for any issues and problems caused by Internet, Wi-Fi/ Wireless Router and Smart Devices. Please contact the original provider to get further help.

NOTE:

All the illustrations in the manual are for explanation purpose only. Your unit may be slightly different. The actual shape shall prevail.
