

# SAFETY DATA SHEET

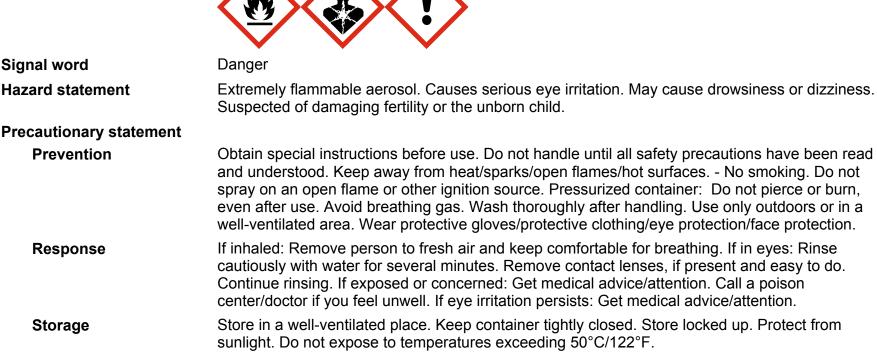

| 1. Identification                 |  |
|-----------------------------------|--|
| Product number                    | 1000035163   |
| Product identifier                | 14 OZ CAMIE 563 HIGH STRGTH FST LT 12PK  |
| Company information               | Camie-Campbell, Inc.<br>1005 S. Westgate Drive<br>Addison, IL 60101 United States<br>www.camie.com |
| Company phone                     | General Assistance 1-800-325-9572  |
| Emergency telephone US            | 1-866-836-8855   |
| Emergency telephone outside<br>US | 1-952-852-4646   |
| Version #                         | 01   |
| Recommended use                   | ADHESIVE   |
| Recommended restrictions          | None known.  |
|                                   |  |

### 2. Hazard(s) identification

| Physical hazards     | Flammable aerosols                              | Category 1                  |
|----------------------|---|-----------------------------|
| Health hazards       | Serious eye damage/eye irritation               | Category 2                  |
|                      | Reproductive toxicity                           | Category 2                  |
|                      | Specific target organ toxicity, single exposure | Category 3 narcotic effects |
| OSHA defined hazards | Not classified.                                 |                             |

#### OSHA defined hazard

Label elements

| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations. |            |  |  |  |
|--|---|------------|--|--|--|
| Environmental hazards                        | Hazardous to the aquatic environment, acute hazard  | Category 3 |  |  |  |
|  | Hazardous to the aquatic environment, long-term hazard  | Category 3 |  |  |  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.   |            |  |  |  |
| Supplemental information                     | None.   |            |  |  |  |

### 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name                        | Common name and synonyms | CAS number  | %        |
|--------------------------------------|--------------------------|-------------|----------|
| Acetone                              |                          | 67-64-1     | 20 - 40  |
| Butane                               |                          | 106-97-8    | 10 - 20  |
| Propane                              |                          | 74-98-6     | 10 - 20  |
| Dimethyl Ether                       |                          | 115-10-6    | 2.5 - 10 |
| Heptane, branched, cyclic and linear |                          | 426260-76-6 | 2.5 - 10 |
| Methyl Acetate                       |                          | 79-20-9     | 2.5 - 10 |
| Parachlorobenzotrifluoride (PCBTF)   |                          | 98-56-6     | 2.5 - 10 |
| n-Heptane                            |                          | 142-82-5    | 1 - 2.5  |
| Cyclohexane                          |                          | 110-82-7    | 0.1 - 1  |
| Toluene                              |                          | 108-88-3    | 0.1 - 1  |
| Other components below reportable    | evels                    |             | 20 - 40  |

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.  |
|--|--|
| Skin contact   | Wash off with soap and water. Get medical attention if irritation develops and persists.   |
| Eye contact  | If eye irritation persists: Get medical advice/attention.  |
| Ingestion  | In the unlikely event of swallowing contact a physician or poison control center.  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.                    |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.   |
| General information  | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. |

### 5. Fire-fighting measures

| Suitable extinguishing media                                     | Alcohol resistant foam. Powder. Carbon dioxide (CO2).  |
|--|--|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                       | Contents under pressure. Pressurized container may explode when exposed to heat or flame.  |
| Special protective equipment<br>and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.   |
| Fire fighting<br>equipment/instructions                          | Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.  |

Extremely flammable aerosol.

### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing gas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

> SDS US 2/12

| Product name: 14 OZ C | AMIE 563 HIGH | STRGTH FST LT 12PK     |
|-----------------------|---------------|------------------------|
| Product #: 1000035163 | Version #: 01 | Issue date: 01-31-2017 |

| Methods and materials for containment and cleaning up | Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent product from entering drains. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.   |
|---|---|
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.   |
| Environmental precautions                             | Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so.   |
| 7. Handling and storage                               |   |
| Precautions for safe handling                         | Obtain special instructions before use. Do not handle until all safety precautions have been read<br>and understood. Pressurized container: Do not pierce or burn, even after use. Do not use if spray<br>button is missing or defective. Do not spray on a naked flame or any other incandescent material.<br>Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill,<br>grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used<br>when handling the product must be grounded. Do not re-use empty containers. Avoid breathing<br>gas. Avoid contact with eyes. Avoid prolonged exposure. Pregnant or breastfeeding women must<br>not handle this product. Should be handled in closed systems, if possible. Use only in<br>well-ventilated areas. Wear appropriate personal protective equipment. Avoid release to the<br>environment. Observe good industrial hygiene practices. |
| Conditions for safe storage,                          | Level 2 Aerosol.  |
| including any incompatibilities                       | Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store away from incompatible materials (see Section 10 of the SDS).  |

## 8. Exposure controls/personal protection

### Occupational exposure limits

### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Other                             | Use of an impervious apron is recommended.  |
|-----------------------------------|---|
| Respiratory protection            | If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.   |
| Thermal hazards                   | Wear appropriate thermal protective clothing, when necessary.   |
| General hygiene<br>considerations | Observe any medical surveillance requirements. When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

## 9. Physical and chemical properties

| Other information                          |  |
| Explosive properties                       | Not explosive.                             |
| Oxidizing properties                       | Not oxidizing.                             |
| Specific gravity                           | 0.528 estimated                            |

Specific gravity

## 10. Stability and reactivity

| Reactivity                         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|------------------------------------|---|
| Chemical stability                 | Material is stable under normal conditions.   |
| Possibility of hazardous reactions | Hazardous polymerization does not occur.  |
| Conditions to avoid                | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| Incompatible materials             | Strong oxidizing agents. Nitrates. Fluorine. Chlorine.  |
|                                    |   |

11. Toxicological information

## Information on likely routes of exposure

| Inhalation   | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.  |
|--|---|
| Skin contact   | No adverse effects due to skin contact are expected.  |
| Eye contact  | Causes serious eye irritation.  |
| Ingestion  | Expected to be a low ingestion hazard.  |
| Symptoms related to the physical, chemical and toxicological characteristics | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. |

### Information on toxicological effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations

| Disposal instructions                 | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |
|---------------------------------------|---|
| Local disposal regulations            | Dispose in accordance with all applicable regulations.  |
| Hazardous waste code                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.  |
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  |
| Contaminated packaging                | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.  |

### 14. Transport information

| <b>-</b>                     |   |  |

This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking.
