THAMES COLLECTION

THAMES COLLECTION

A tribute to England's modern and Brutalist architecture our 'Thames' fabric collection looks to the iconic buildings that line London's popular South Bank. The collection includes references to the heavy board-formed concrete shapes of the National Theatre and the branded lights of the OXO Tower as key inspirations. Available in 3 unique colour stories, we invite you to be brave with our oversized stand-alone designs or make a contemporary statement with our all-over infinity prints.

DORFMAN

MODERN VELVETS

Our rich and luxurious printed velvet is well suited for upholstery, drapes and soft furnishings. Available in a selection of bold, geometric designs this short pile velvet is a premium choice fabric suitable for Residential and Contract interiors.

LASDUN

Our new Lasdun design introduces a softer direction to the PIPÉT collection. Brave in scale, this refined artisanal pattern is intended to be the main attraction when used for drapes or upholstery.

LYTTELTON

Lyttelton is the contemporary choice for those seeking all-over, smaller scale prints. Available in 3 colours, our heavy velvet fabric is suitable for upholstery, drapes and soft furnishings.

SOFT BLUSH

The Thames Collection consists of 10 new designs in 3 modern colour ways. Choose from our rich rust and teals, contemporary blues or soft blush pink and green colour stories.

For a strong interior style keep palettes limited and textures clean to highlight your feature fabric.

COTTON SATEEN

Our smooth 100% Cotton Sateen is the modern choice for beautifully printed fabric. Hard wearing and durable it is suitable for a variety of purposes including upholstery, drapes and soft furnishings. Choose from our full range of designs in the Thames Collection.

BERNADETTE

An Inspiring Collection.

Each print in the Thames Collection possesses a full and strong identity. Reflecting the character of the local neighbourhood, the designs are named after key figures and prominent members of the community who played an important role in shaping the South Bank into the area we know today.
