

## Production Artist

We are seeking enthusiastic designers to join our Production Art team. The ideal candidates must be detail-oriented, fast workers with an incredible ability to adapt to our ever changing and growing business.

This position is fast-paced, with a heavy workload and is rarely creative. We are process oriented and expect our team members to live by our processes and be able to adapt when the process improves.

As a Production Art team member your basic responsibilities will include:

- Applying existing artwork to childrens' sports garments
- Work with our sales team to ensure customer satisfaction
- Work directly with our production team to ensure quality of each piece
- Design clean production files for embroidery, screen print and sublimation
- Maintaining a running list of current projects and the status of each
- Create, incorporate and maintain all artwork into our database system

We aren't just looking for a designer to follow process and rules, but to also help us innovate and find ways to improve our process and grow with our company. We need forward-thinking designers who are passionate about organization, clarity and communication.

If you think you may be interested in this position please email your PDF resume to [cberstler@garbinc.com](mailto:cberstler@garbinc.com) with the subject line as "GARB PRODUCTION ARTIST". Please include a short letter of introduction and a link to your online portfolio.
