

Dear Client,

The main aim of Bioresonance therapy is that every treatment is detoxifying you and also taking toxic stressors and strains out of your body and this lets your immune system get on with the job of keeping you well. Our immune system usually does such a good job that we do not notice it working. We do notice when it is not working and by the time symptoms present, you have actually been unwell for some time. The body is really wise and given the chance, it will heal itself. The Bioresonance machine is like a back- up immune system helping you out till your own immunity can take over. The Bioresonance machine picks up signals from the body and sends them back in a modified version to eliminate allergens and toxins and amplifies harmonious signals. The Bicom machine is made in Germany and this method of treatment has been used there for decades.

Nature heals and to receive healing you just remove the blockages and stand out of the way. We become unwell when we have reached the total body load of toxicity for our system, like a barrel filling up with toxins until it is full. Common blockages that are removed with Bioresonance include stress, allergies, chemicals, drugs, geopathic stress, heavy metals, hidden infections like parasites and bacteria, fungus and electro- magnetic radiation. Also getting rid of allergy foods can have you start healing in an afternoon. These can even be supposedly healthy foods.

I have attached a health history form for you to print out and complete and bring with you. For most of the treatment people are generally lying down and I place some electrodes on the body at times. It is best to wear loose comfortable clothing and have a couple of glasses of water on the morning of the treatment.

First treatment for adults is two hours and subsequent visits are one hour. First treatment for children under 12 years old is usually one hour with subsequent visits being one hour or half an hour and usually I recommend three to six visits. Cost is \$110 per hour. We get through a good amount of testing and treating in each session. All testing is non-invasive and no medicines or supplements are prescribed.

Please contact me with any questions or to have a chat about your health.

My website is www.naturalsystemsalignment.com.au

My address is Level 4, 54 Jephson Street Toowong. We have just moved and have no signage as yet but you will know you are in the right place when you get out of the lift and see the purple walls. Turn right and Sandra at reception will greet you. There are two car parks as you drive down our driveway on the right- hand side behind staff cars. The first row of two is not ours, we are the second and third row. There is also 2 hours free parking at Toowong Village (which houses the Toowong Train Station), or in the old Woolworths car park as well as street parking up the side streets.

Warm Regards Jane
