

INSTALLATION INSTRUCTIONS
EVANNEX DOOR HANDLE UPGRADE FOR MODEL 3 & MODEL Y
Copyright © 2022 EVANNEX®, All rights reserved.

Please read these installation instructions **BEFORE** you attempt to apply the vinyl kit.

Installation of our Door Handle Upgrade for Model 3 and Model Y is relatively easy and requires no tools. However, if you're uncomfortable with installation for any reason, we recommend that you contact a professional installer at an automotive custom shop and have that person do the work.

INSTALLATION

We recommend doing this work in a dust free environment in which the temperature is at least 72 degrees F.

Step 1. Wash your entire Model 3 or Model Y thoroughly. Be sure you have removed all dust, dirt, sand, and oil before proceeding further. Allow the vehicle to dry. **Using 70% isopropyl alcohol, clean the surface of each OEM door handle assembly thoroughly.** This is **very important** for a good result.

Step 2. Be sure you select a Door Handle Upgrade piece that conforms to the shape of the OEM door handle you are working on. Note: The shape for driver and passenger side door handles are mirror images of one another.

Step 3. Peel the red adhesive backing from the upgrade piece. **IMPORTANT:** The adhesive we use is **VERY strong**. Be sure not to let it touch any automotive surface until you're ready to install.

Step 4. Hold the upgrade piece just above the OEM door handle and visually align it with the edges of the OEM door handle. Once you have alignment, press the upgrade piece into place. **CAUTION:** Once the upgrade piece contacts the OEM surface, it is very difficult to remove or reposition, so be sure alignment is correct.

Repeat steps 2 through 4 for all four door handles.

Your installation is complete.

RETURNS

Like all EVANNEX® products, you may return the Door Handle Upgrade unopened and unused for a period of 30 days from delivery. You must have an RMA number for proper processing of a return. The cost of return packaging and shipping is your responsibility. However, once the red backing has been removed from any upgrade piece, the product can no longer be returned for credit or exchange. Therefore, please be certain that you're satisfied with the look and style of your door handle upgrade BEFORE you remove the backing from any piece.
