

*The Leading Choice of
Physicians*

Joints In Motion Medical is the bracing provider preferred by your doctor. We are a locally-based company specializing in medical equipment and bracing products for orthopaedic rehabilitation applications. We have over 20 years of experience providing these products in Wisconsin, and we are the choice of more physicians statewide than any other provider in our market. We are honored that your physician has entrusted us with your care, and we look forward to serving you.

"We Make House Calls!"

Your Prescription

Your doctor has prescribed a supportive brace, or *orthotic*, for your use. Orthotics, such as knee or back braces can play an important role in post-operative recovery. They may also be used

as part of a treatment plan that is designed to delay or avoid surgery, allowing the patient to return to a higher level of activity.

Your physician realizes how important it is that you receive the best service and the proper expertise with the product that has been prescribed for you. That is why he/she has chosen J.I.M. Medical to provide your brace.

To ensure the best outcome, it is important that your brace is properly fit, and that you are properly instructed in how to apply and use it.

We will work with your physician to develop a plan of care specifically for you to select the most appropriate brace and ensure the best result. All of our products have a satisfaction guarantee.

Where do I get my brace?

Yes, we make house calls! A Joints In Motion Medical Representative will contact you and arrange to come to your home to measure and fit your brace for you. Some patients prefer that we see them at work or at the therapy clinic following a scheduled therapy appointment. You decide what is most convenient for you. Appointments are also available at our Waukesha office if you prefer.

With some “off-the-shelf” products we can often measure and fit the brace in one trip. With custom-made products, it requires two visits: one for measurement, and one for fitting and instruction after the brace has been fabricated.

Your representative should be in contact with you in the next couple of days. However, please feel free to contact your J.I.M. Medical representative directly at the number listed on the card below anytime.

Will my insurance pay for my brace?

Joints In Motion Medical will contact your insurance company to verify your benefits and try to obtain authorization for your brace. Insurance plans each have distinct guidelines for coverage regarding bracing products.

We are a local company and we're in-network with most plans. If we are not listed as a provider with your plan, we can make arrangements to obtain in-network benefits on your behalf.

In cases where insurance coverage is not available, J.I.M. Medical can offer discounted rates and monthly payment plans as necessary to ensure you access to the product your doctor has prescribed for you.
