SPINAL BRACING

"We Make House Calls!"

Your Prescription

Your doctor has prescribed a spinal brace from Joints in Motion (J.I.M.) Medical to assist you with your rehabilitation and pain management. A spinal brace will support you throughout the day, and throughout your recovery.

Our goal, along with your doctor, is to provide you with the best product for your pain relief, support and comfort.

Your doctor will contact our office and together, we will choose the best brace for your diagnosis. Then a J.I.M. Medical representative will contact you to schedule a fitting and delivery. We will take care of instructing you on proper use of the brace according to your doctor's orders.

Indications

Your spinal brace from J.I.M. Medical can be your solution to lower back pain, mechanical back pain, spinal instability, bulging or herniated discs, or osteoporosis bone collapse. Many health care providers will prescribe a spinal brace for industrial back support, back sprains and strains, thoracolumbar injury, revision surgery, multi-level fusion, multiple level decompression, disc degeneration, and much more.

J.I.M. Medical offers different styles of braces and will work with your physician to fit your specific need.

Insurance Information

J.I.M. Medical will contact your insurance company to verify your benefits and try to obtain authorization for your brace. Insurance plans each have distinct guidelines for coverage regarding spinal braces.

We are a local company and we're in-network with most plans. If we are not listed as a provider with your plan, we can make arrangements to obtain in-network benefits on your behalf.*

In cases where insurance coverage is not available, J.I.M. Medical can offer discounted rates and monthly payment plans as necessary to ensure you access to the product your doctor has prescribed for you.

* While we strive to obtain in-network benefits whenever possible, we cannot guarantee that we will be able to obtain in-network benefits in all situations.
