SPIDER® MINI-RACKING SYSTEM

With a wide range of dimensions and options available, industrial-quality Rousseau Mini-Racking units offer an efficient way to store bulky items in a scalable system that easily adapts to specific needs.

The Spider® Mini-Racking system is heavy duty, easy to assemble, and is the most versatile and complete solution of its type on the market.

Designed for intensive use, the system helps you to use the space you have available to its full potential, in areas such as warehouses, repair shops and distribution centers.

LIFETIME WARRANTY
 The Rousseau drawer rolling mechanism is covered by a lifetime warranty.

R5XEC-2004

THE ROUSSEAU DIFFERENCE

Steel beams designed for several decking types: steel, wire mesh and wood.

The distinctive "claw" at the end of each beam hooks onto the front of the posts for extra structural rigidity and incredibly fast assembly.

The common post is compatible with Mini-Racking and industrial shelving.

Using a combination of modular drawers with a shelving unit joined to the Mini-Racking structure, bulky items and small parts can be stored together, see pages 103-104.

NOTE: The unique design of the Spider® post is a trademark of Rousseau Metal Inc.
