

First in Air Quality

Since the HealthPro® Plus was launched, it has received more #1 product reviews than any other air purifier on the market. The Discovery Health TV series found HealthPro Plus to be the only air purifier to produce a "0" (zero) reading on their sensitive particle testing equipment.

HealthPro® Plus

#1 Rated Air Purifier

The HealthPro® Plus is #1 because it captures what other air purifiers miss - from the stuff you can see floating in the air, down to ultra-fine particles (categorized at 0.1 microns or smaller) small enough to be inhaled and absorbed into your bloodstream.

What Makes it the Best?

- Revolutionary HyperHEPA® Filtration:
 - Captures even ultra-fine particles which pose the greatest health threats (e.g. heart attack, stroke, congestive heart failure and premature death.)
 - Filters down to 0.003 Microns (Most air purifiers capture only 0.3 microns and above and at a much lower efficiency.)
 - Removes as much as 100 times the amount of airborne allergens and pollutants as some commonly sold air cleaners
- Advanced Gas & Odor Control with Patented V5-Cell™
- Highest Quality Components and Swiss Precision Engineering
- Certified Ozone-Free by the IAACM
- Industry Leading Performance Guarantee (Each HealthPro® Plus is individually tested and certified for performance efficiency before it leaves our factory in Switzerland.)

IQAir is proud to have been chosen by the American Lung Association (ALA) as their educational partner for the air cleaner industry. This exclusive partnership combines ALA's 100 year commitment to promoting lung health with IQAir's over 45 year commitment to air cleaning excellence.

Technical Product Information: IQAir® HealthPro® Plus

Performance			
Certified filtration efficiency	Greater than 99.97% for particles ≥ 0.3 Microns (µm). 99.5% at ≥ 0.003 microns		
Maximum air delivery *	240 cfm (410 m³/h)		
Air delivery for all six fan speeds (in cfm) *	40 70 110 140 170 240		
Air delivery for all six fan speeds (in m³/h) *	70 120 185 240 290 410		
Leak tested	Yes		
Performance Certification	Certificate of Performance guarantees the system's airflow and efficiency (≥ 0.3 microns)		
Filter Configuration			
Pre-filter	PreMax™ large capacity coarse and fine particle filter with 30 sq. ft. (2.8m²) surface area Wet laid glass microfiber media, pleated with solvent-free separators <u>Efficiency:</u> > 99% efficient at 5 µm		
Gas & odor filter	V5-Cell™ wide spectrum gaseous chemical and odor filter - contains 5 pounds (2.5 kg) of activated carbon and potassium permanganate impregnated alumina		
Main particle filter	HyperHEPA® medical-grade ultra-fine particle filter, 53 sq.ft. (5 m²) surface area Wet laid glass microfiber media, pleated with solvent-free separators Rated filter class: H12/13 (EN1822)		
Average filter life Based on 8 hours usage per day on speed setting 3	PreMax Filter: 6 – 18 months	V5-Cell: 1 – 3 years	HyperHEPA Filter: 2 – 4 years
Specifications			
Size (H x W x D)	28" x 15" x 16" (71 cm x 38 cm x 41 cm)		
Weight (incl. filters)	35 lbs. (16 kg)		
Fan motor	Backward curved centrifugal AC type, 700 cfm (1200 m³/h) free flow capacity at 2750 rpm		
Control panel	Microprocessor controlled with 32 character LCD display and 4-key touch pad		
Air intake	Dual arches at base of system		
Air outlet	320° EvenFlow™ diffuser at top of system		
Color of main housing / locking arms	Light grey / white		
Housing material	ABS and ABS/PC blend thermoplastics (non off-gassing, UV-stabilized)		
Electrical and Operating Requirements			
Safety approval	CSA rated for continuous operation under applicable UL and CSA standards		
Line voltage & frequency	100-120 volt, 50/60 Hz		
Power consumption on standby	< 1 W		
Power consumption per fan speed	27W 53W 92W 121W 154W 215W		
Operating temperature	41° to 104° F (5° to 40° C)		
Operating humidity	5% to 95% non-condensing		
Control Panel Features			
Display languages	English (default), French, German, Spanish		
Additional features	Intelligent filter life monitor, filter life status LED, timer status LED, programmable timer (6 speed settings, 2 time periods)		
Accessories			
Standard	Remote control (battery included), set of casters		
Optional (available from Authorized IQAir Dealers)	Positive/negative pressure ducting, coarse dust pre-filter		
Warranty			
Warranty period	5 years on parts and labor (excluding filters)
