**OUR PASSION**

The Juice Laundry was founded on the concept of keeping our bodies clean and healthy, starting with what we put into them. Raw, organic fruits and veggies are nature's medicine and the foundation of preventative health care. Whether juiced, blended, or eaten whole, fresh produce is full of life-giving nutrients and enzymes. We choose to use 100% organic ingredients, 100% of the time, because the phrase "organic whenever possible" is often highly misleading. If we can't find something organic on a given day, it won't be on our menu. That's our commitment to you, and to your health. We don't use HPP (or any other process) on our juice, because we're committed to crafting only the freshest, most nutrient-dense juice possible. Thanks for checking us out!

\* Our juice is truly raw and full of live nutrients and enzymes. Since we will absolutely never use HPP or any pasteurization process on our juice, be warned that it may contain harmful bacteria that can cause serious illness in children, the elderly, and persons with weakened immune systems.
