# CHISELED

**Surface Works Collection** explores and celebrates the beauty of naturally manipulated surfaces. The collection highlights a sophisticated, earthy color palette. **54870 Chiseled** translates the exaggerated raw edges of chiseled rock into an uneven layered, large scale pattern. **54871 Cracked** plays on the organic evolution of peeling and weathering that exposes irregularities on a natural surface. **54872 Fractured** is a small scale pattern of altered and split lines that represents the fragmented surface texture created by atmospheric and elemental forces.
