Manufacturer: Shenzhen Qianhai Weizhisheng Network Technology Co.,Ltd
Manufacturer Address: Building 1,No.1 Qingqing Road,
Longhua District, Shenzhen,China
Read this instruction manual carefully before operating the unit and keep it for future use. Failure to observe and comply with these instructions may result in an accident.

**WARNINGS**

- This equipment may be used by children aged 8 years and over and by persons with reduced physical, sensory or mental abilities or without experience or knowledge, if they are properly supervised or if instructions on the safe use of the equipment have been given to them and the risks involved have been understood.

- Children should not play with the device. Cleaning and maintenance by the user must not be carried out by unsupervised children.

- This unit should only be recharged with the charger provided.
SAFETY INSTRUCTIONS

- Make sure that your device and its accessories are in perfect condition before use. You should not use it if you notice any anomalies.
- Before connecting the unit, check that the voltage indicated on the charger corresponds to that of your electrical installation.
- Check the charger power cable regularly. Never immerse the charger. Never leave the charger connected continuously to the socket.
- Your appliance is intended for domestic use inside your home. Use it according to the instructions in the manual.
- The device must only be supplied with the very low safety voltage corresponding to the marking of the device.
- Never use this unit outdoors. Do not remove the plug by pulling the cable or the device itself.
- Do not use this device while it is charging.
- Do not use this appliance to vacuum incandescent or sharp objects (cigarette butts, lighted matches, hot ashes, nails).
- Do not use this vacuum cleaner to vacuum pins, twine, flour, cement, plaster, or any other construction or decorative material.
• Never inhale liquids or toxic substances, detergents, gasoline or dangerous or flammable products. You may seriously damage your device.
• Do not use the vacuum cleaner on damp surfaces. Make sure never to clutter the air intake areas.
• Do not use the device if it has fallen into water.
• Do not use the device without the tank and filter. Keep this device away from hot surfaces.
• Never immerse the device and/or transformer in water or any other liquid.
• Do not use the device if its accessories are not properly assembled.
• Unplug the unit from the power supply while it is not in use and before cleaning it.
• Unplug the unit from the mains when it is fully charged. Do not disconnect the mains plug by pulling the cable.
• Be sure to disconnect the unit from the mains before replacing any accessories.
• For your safety, use only the original accessories supplied with your device.
• Never leave the unit unattended when plugged in. Always be sure to have dry hands when turning off or unplugging your device.
• This product must not be connected to an external timer or remote control system.
• Do not place the base near a heat source.
• Do not drop or pierce the battery.
• The operating temperature of the product varies from 0°C to 40°C, do not use it in environments that exceed the maximum recommended temperature.

3. Motor
4. Unlocking button
5. Vacuum cleaner tube
6. Brush unlocking button
7. Main brush
8. Dust cup
9. Battery indicator light
10. Dust compartment button
11. Filter
12. 2-in-1 brush
13. Battery
14. Batter releasing bottom
15. Screws
16. Adaptor
ASSEMBLY

1. Place the filters inside the dust container, turn the cone and align the notches on the cone with the ridges of the container.
2. Insert the filter into the cone, then the dust container into the motor until you hear a click.
3. Install the brush at the lower end of the tube and the tube to the main part.

4. Attach the battery to the main part of the unit until you hear a click.

Attaching accessories to the main part of the unit
- To install the 2 in 1 brush, simply insert it into the hole in the main part until it is firmly attached.

Attaching accessories to the vacuum cleaner tube
- Insert the round end of the 2 in 1 accessory into the lower end of the tube until you hear a click.
OPERATING GUIDELINES

Before the first use:
- Remove all packaging or stickers from the unit.
- Check the presence and condition of all accessories.
- Assemble the vacuum cleaner as explained above.
- Position the vacuum cleaner on the wall bracket, plug it in and let it charge completely.
- When the battery is charging, an indicator light lights up. When charging is complete, all indicator lights switch on.

**Important:**
Do not leave the charger connected continuously. Unplug it once your vacuum cleaner is charged. This will save you energy and extend the life of your charger. The battery supplied is only suitable for this vacuum cleaner.

**Remark:**
You must fully charge the battery before first use and when the device has been unused for a long time. When the battery starts to run low, recharge it immediately with the adapter.

**Use:**
Turn the vacuum cleaner on and off with the on/off button and use the speed control knob to adjust the power.
**2 in 1 accessory**

- Insert the 2-in-1 accessory into the main unit and push the brush head backwards. This accessory is perfect for cleaning sofas, corners, stairs, keyboards, furniture, shelves, electrical appliances and narrow areas.
- Insert the 2-in-1 accessory into the hose and push the brush head back. You can now reach the ceiling and other high areas.

**Main brush**

- Attach the accessory to the hose. This accessory is ideal for vacuuming floors and carpets.

**RECHARGING**

1. Place the vacuum cleaner on the wall bracket.
2. Plug it in.
3. The indicator light near the switch starts flashing, indicating that the vacuum cleaner is charging. After about 3 to 4 hours, the charging indicator stops flashing, indicating that the vacuum cleaner is fully charged.

**CLEANING AND MAINTENANCE**

Clean the body of the device with a soft, dry cloth.
Never use detergents or abrasives to avoid damaging the unit.
Never immerse the device in water or any liquid.
Store the unit in a place away from direct sunlight.

To empty the dust compartment:
Press the unlock button to separate the dust container from the main part. Then press the button on the dust container and empty it.

Cleaning the dust compartment:
Remove the dust container, remove the filter and the plastic filter. Wash and air dry both filters.

Cleaning the main brush:
Slide the tab at the bottom of the accessory, remove the brush and clean it.

TECHNICAL SPECIFICATIONS:

Battery: Li-ion 22.2V 2200mAh  
Power: 120W  
Vacuum: 7 - 11 kpa  
Dust capacity: 0.5L

Noise level: ≤72dB  
Product weight: 2.6kg

Charging time: 4 to 5 hours  
Product size: 260x300x1060mm

WARRANTY

This product is guaranteed for a fixed period of time with the distributor from the date of purchase against any failure resulting from a manufacturing or material defect. This warranty does not cover defects or damage resulting from improper installation, improper use or abnormal wear and tear of the product. The device must be returned in its original packaging and accompanied by the receipt, subject to proper handling. Therefore, observe the operating instructions and safety instructions given above. In addition, we cannot guarantee your device if you or a third party have made any modifications or repairs.

SELECTIVE COLLECTION OF ELECTRICAL AND ELECTRONIC WASTE

Electrical products should not be disposed of with household products. According to the European Directive 2012/19/EU for the disposal of electrical and electronic equipment and its implementation in national law, used electrical products must be collected separately and disposed of at the collection points provided for this purpose. Contact your local authorities or dealer for recycling advice.
