

# Evluent Vertical Mouse C Series

## Great fit and relaxing grip

The Evluent C Series is the latest in the Evluent range.

The new shape is even more relaxing to grip and fits the hand even better.

## Relax your wrist

As with all Evluent mice, the patented ergonomic shape supports the hand in an upright neutral posture that eliminates forearm twisting.

## Ergonomic and esthetic

Available in three models and with a shape that fits the palm even better, the C series reduces the angle between the wrist and hand, delivering ergonomics with a modern design and luxurious look.
