FEEL BETTER, WORK BETTER

ERGONOMIC OFFICE SOLUTIONS FOR *EVERYBODY*

Introduction to *ergoport*TM

What will you get by working with us?

Ergoport has been supplying high quality ergonomic office solutions and consultancy services to individuals, organisations and government agencies for over 17 years. Ergoport is now one of the leading ergonomic office solutions providers in Australia.

Promoting Posture, Preventing Pain

Having the correct Display Screen Equipment (DSE) in place for each user improves posture and general working comfort which in turn increases productivity and reduces absenteeism. We have gained a reputation for a customer-focused approach - ensuring that each individual is left with the correct equipment and know exactly how to use it.

Ergonomic Office and Mobility Solutions for you...

It is vital that users know how to adjust and understand how to use their equipment, this is why we have put together a handy sitting tips booklet which acts as a great reminder of how to sit and setup up your desk ergonomically.

Why should you use us?

Australia Wide

Based in North Sydney close to public transport and the Sydney CBD our showroom is easily accessible. We ship all over Australia straight to your door making it easy for you to be setup ergonomically.

Education

Ergoport representatives are available to help walk you through your ergonomic setup. We also have a breadth of knowledge on the website to help.

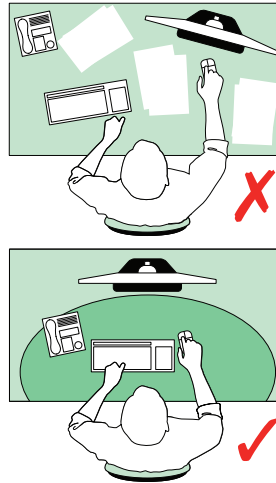

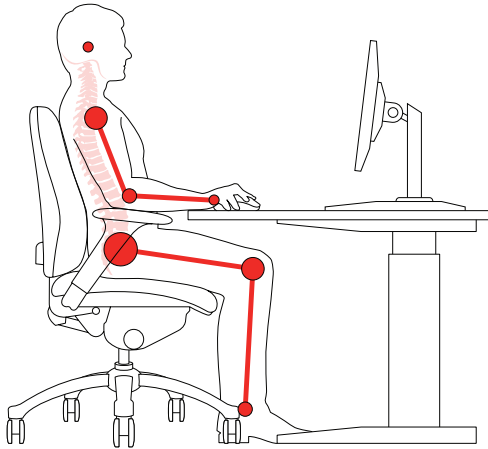

Assessments

We have a team of DSE trained assessors that will visit individual workstations or whole offices to conduct assessments on a nationwide basis.

Ergoport Assessments with a difference:

During our assessments we can bring equipment with us for the user to try. This is optional but it gives an opportunity for trial and error, leading to a better success rate on suitability. We can leave the equipment on trial to avoid a gap between the assessment and equipment being on-site.

Products Availability

We work closely with many of our manufacturers and distributors in Australia. Each manufacturer and distributors hold large amounts of stock in Australia making it a seamless process from purchase to your door. Bespoke items can take longer but our friendly staff can advise you on lead times when purchasing your equipment.

Free Pre-Purchase Suitability Trials

We offer FREE 1 week product trials to ensure that the items will be suitable for the individual. If the product is deemed unsuitable we will try another product until we find the right solution.

Supplier on the NSW Pre-qualification Scheme and NSW Health

Ergoport can supply over 600 ergonomic office furniture product through the NSW Pre-qualification scheme meaning we are prequalified to sell to any government agency in NSW. We are also on the NSW Health scheme allowing us to sell to hospitals throughout NSW with our large healthcare range. Ergoport not only sells to NSW we sell to government and commercial entities all over Australia.

Product Advice

We are product specialists so if you need any advice or help sourcing a product you can't see on our website then let us know.

Chair Hire

Sometimes chairs are only needed for a short time. In these instances we have loan chairs which we can supply for as long as required.

Our Chair Range

Something for Every Body...

We supply a vast range of chairs for different people and environments to provide greater support and more comfort for anybody and everybody.

Ergonomic Chairs

We have a wide range of ergonomic chairs to meet any requirement. For the full range visit our website.

24/7 Chairs

If you need a chair for a 24 hour environment i.e control room then we have a range of chairs designed for 24 hour use.

Heavy Duty Chairs

If you have a requirement for a chair for a larger user then we have various heavy duty chairs which can hold up to 200kg in weight.

Petite Chairs

We also supply chairs for the smaller user including both adults and children. These are available in both task and mobility chairs.

Sit-Stand Chairs

For high and sit-stand workstations we can supply high task chairs and perching stools which are perfect for this use.

Alternative Chairs

We have a range of chairs which have an alternative design, not like a standard office chair. These chairs look great and feel great too.

Executive Chairs

Our range of executive chairs offer great ergonomic functionality as well as great looks.

Bespoke Chairs

This is what we are good at, if the standard doesn't fit we are the best at finding or even making something that is more bespoke to you.

Accessories

Tablet Solutions

Tablets can cause musculoskeletal problems due to their size and proximity to the body when in use. Our tablet solutions enable an ergonomic posture by creating a more user-friendly viewing angle with the use of tablet stands / arms, while our tablet keyboards create a further distance between the user and the tablet and avoid issues such as carpal tunnel by enabling a more natural forearm position.

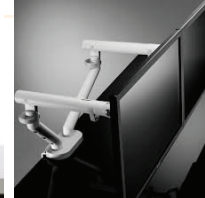

Mice & Keyboards

Our wide range of keyboards and mice enable us to find one to suit all users. Our mice are designed to alleviate injuries such as carpal tunnel syndrome and tennis elbow which can be caused by the un-natural forearm position which traditional mice cause. Our compact keyboards reduce repetitive strain by bringing the mouse closer in to the body while our more specialist keyboards have very specific functions i.e. large print.

Document Holders

The majority of people reference from paperwork flat on their desk which causes a hunched posture and strain to the user. Our copyholders lift the paperwork to a better viewing angle to enable an upright posture when referencing. We have a variety to suit all workstations and requirements.

Monitor Arms/Stand

A monitor should be positioned at arm's length and with the top of the screen at eye-level. Our monitor arms and stands ensure the right screen position for all users. The adjustability of monitor arms also makes them ideal for hot-desking.

Laptop Solutions

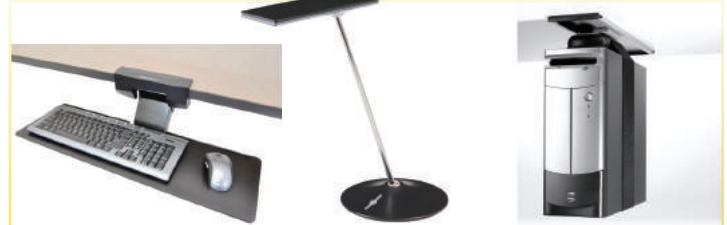

Most people use a laptop either flat on their desk or on their knees. This causes a hunched posture due to downward viewing angles and can lead to musculoskeletal injuries. Our laptop stands are designed to raise the viewing angle of the laptop to enable a more upright posture when in use, preventing strain on the neck and back. Our laptop bags make transporting and using laptops on the go far easier.

Footrests & Leg Rests

Our footrests ensure that all users have their feet supported no matter what height their workstation and chair is. We have various footrests such as the HAG Quickstep which promotes ankle movement and stimulates blood flow. Our leg rests are perfect for those needing to elevate their leg position.

Office Accessories

Our office accessories are designed to ensure every task, whether big or small is as comfortable as possible, be it a lack of light or to help when holding a pen.

Wrist & Forearm Supports

Our range of supports are designed to alleviate pressure on the wrists and forearm, helping to provide greater comfort, especially when using a mouse and keyboard. There is a wide range for individual preference.

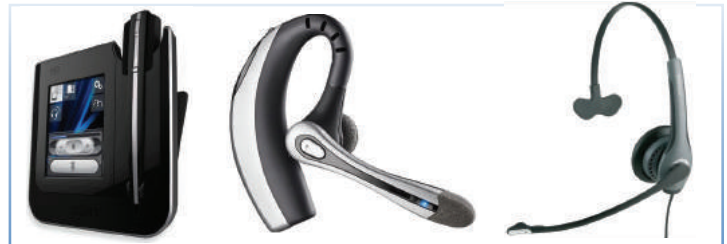

Retrofit Sit stand Desks

Sometimes an electric desk is not for everyone that's where retrofit sit-stand desks come in. Place them on your desk and go from sitting to standing in seconds.

Back/Seat Supports

Our back and seat supports are designed to provide better levels of comfort and more support when a whole new chair isn't required. They are also perfect for people to transport around to ensure they are always supported, whether at a desk, at home, or when travelling.

Telephone Headsets

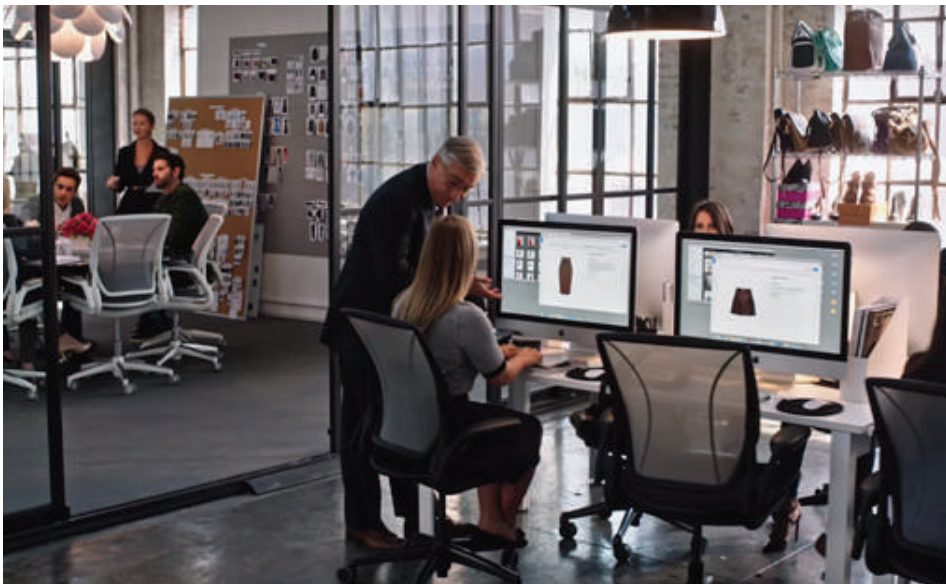

Cradling a phone against your shoulder whilst typing and writing can be one of the main causes of neck and shoulder complaints. Our headsets enable comfortable use, freeing the hands to write/type comfortably and in an upright posture. We also have ones compatible with Dragon software.

Office Solutions

Home Office

Working from home doesn't mean you have to work on the kitchen table and throw ergonomics out of the window. With Ergoport's cost effective home office options you can have style and ergonomics combined. Contact us today or visit our showroom to view solutions that could suit your home.

Products Availability

Office fitouts don't need to be boring and bleak. Let Ergoport work with your business to create a striking and inspiring office environment. Our ergonomic range of height adjustable desks, chairs, lighting, monitor arms and office storage solutions can transform your business without breaking the bank. Contact us today for ideas and see how we can help your business reimagine your workplace.
