## Electric sit-stand ergonomic workstation

**Standesk** is a beautifully designed and engineered electric height adjustable sit-stand workstation. The **Standesk** converts your existing desktop into a sit-stand workstation and gives you the ergonomic benefits of sitting and standing at your existing desk without the expense and inconvenience of purchasing a new desk. Another advantage is that it is transportable should you be shifted to a new work area.

**Standesk** has a large and generous desk area to accommodate your keyboard and monitor, or your laptop. **Standesk** has infinite height settings for any height you may desire and is adjustable in seconds!!

**Standesk** operates using an electric motor to adjust the telescopic adjustment inside the leg that allow for smooth movement of the desk surface. **Sensor touch buttons** make the lifting process effortless to adjust, even fully loaded.

Most importantly, **Standesk** adjusts in a vertical line, eliminating any deviation and allowing for a minimum footprint on your existing desk.

# Electric sit-stand ergonomic workstation

**Materials used:**

**Desktop**

**Compact Laminates\*** are an innovative and durable decorative panel made from thermosetting resins, homogeneously reinforced with cellulose fibres and manufactured under high pressure and temperature. As such, the panels are strong, self supporting, moisture resistant and durable.

**Frame**

The **Standesk** utilises European technology, constructed with a sturdy steel frame and powered by an electric motor drive. Maximum height is achieved via three sections of telescopic legs. Touch button control offers easy adjustment and allows the user to easily adjust the worktop height to their individual preference.

**Advantages and Features**

- Simple, quick and easy height adjustment - just by **touching a button**
- Sits on top of an existing desk, no need to add additional expense buying another desk
- When used it will help reduce cardiovascular disease and reduced incidents of neck and back pain
- The Standesk Electric Sit-Stand workstation will give you increased productivity, energy levels and overall mental and physical fitness, all within an affordable budget.
- **No pinch points** for personal safety, and eliminates the possibility of power cords being cut creating an electrical hazard and electric shock
- Ease of operation with Sensor touch activating buttons - just touch the button to activate
- For the best experience, it's best to use a wireless keyboard & mouse
- Go anywhere, transportable and compact especially if you change work area or re-location
- **Affordable**, cheaper than buying another complete desk and most other sit-stand systems
- **Single monitor fixing assembly included**
- Small footprint - raises and lowers in a vertical plane
- Colours available in White and Black
- Infinite incremental height adjustment possible
- Sturdy and stable even when fully extended
- Conforms to AS/NZS60335.1 Electrical Standards

## Electric sit-stand ergonomic workstation

Not only is the **Standesk** a great way of reducing fatigue and other health issues, it can also be used where there is a requirement for people of different sizes to operate at the same location at different times. The **Standesk** is a perfect solution.

Research has proven the dangers of sitting for long periods of time. The more we sit, the greater chance we have of becoming overweight or obese and developing heart disease and type 2 diabetes.
