

Unimouse

Unimouse is comfort in motion. Welcome to the future of mousing.

Posture variation is the cornerstone of ergonomics, which is why the Unimouse has been designed so that you can explore its 4 friction-based points of articulation to find your own unique comfort.

35 degrees of true adjustability

The patented articulating hinge allows users to adjust the angle of body tilt anywhere between 35-70 degrees. It features a friction-based system for an experience that is simple, yet stable in any position.

Revolutionary design

The ATS (Articulating Thumb Support) eliminates harmful gripping and pinching of the CMC (basal) joint and helps to reduce RSI. The tri-axis thumb rest accommodates hand width with ease and allows users to relax their grip in any position, regardless hand size and shape.

Maximum precision

With a state of the art Pixart (PMW3330) sensor, it provides seamless performance on almost any surface at a working distance of up to 8 meters, while ten cursor speed selections let you work at your own pace.

Unlimited performance

Lithium-Ion Polymer battery provides up to three months of power (may vary, based on usage) on a single charge and Data+Charge cable allows charging while you work to help eliminate downtime. The clever "Smart Sleep" battery system ensures a long lasting wireless experience by hibernating when not in use.

Features

1. Adjustable Tilt

Patented articulating hinge allows users to adjust the angle of body tilt anywhere between 35-70°.

2. 6 Programmable Buttons

Unimouse features 6 programmable buttons (Left, Middle, Right, Scroll Click, Forward, Back)

3. ATS

Articulating Thumb Support – Adjustable thumb rest allows you to accommodate any hand size to provide help reduce grip pressure and pain.

4. Quick Charging, Long-Life Rechargeable Battery

Lithium Ion Polymer (LIP) Battery allows for up to 3 months of use on a single 2 hour charge. (May vary based on user conditions)

5. Wireless

Unimouse features a 2.4Ghz Advanced Wireless chip.

6. 10 Cursor Speeds

Quickly adjust the speed of your mouse with 10 built-in cursor speeds ranging from 800 to 2800.
