ENGINEERED TO PERFORM

At Bushbuck, we've been engineering high-quality gear that performs in the world's harshest environments for the past 10 years. With a focus on hunting, hiking and farming gear, we've earned a reputation for clothing that stands up to the bumps and bruises of hard work. Bushbuck gear is engineered to be durable, weather resistant, functional and comfortable. We're proud to supply workwear and uniforms to a wide range of corporate clients, including construction companies, tradies, defence forces, farmers, cullers, outdoor pursuit centres, tourism operators and more. Whether your team's working outdoors, on the farm, on the building site, or in the office, Bushbuck gear will keep them warm, dry and protected on the job.

A photograph of a clothing store interior. The store is filled with racks of outdoor gear, including jackets and trousers. The gear is displayed on wooden hangers and metal racks. The background shows a wall with some graffiti and a security camera. The lighting is bright, and the overall atmosphere is clean and organized.

THE BUSHBUCK DIFFERENCE

Bushbuck is proudly New Zealand owned & operated. All our gear is designed and engineered in our Christchurch headquarters and tried and tested in our own backyard — the rugged wilderness of the South Island. Engineering is our edge. We're driven by the question, "How can we make this better?" and we're determined to find a way. Our corporate customers understand that if Bushbuck gear's good enough for hardcore hunters, it's more than good enough for them. If you're looking to invest in quality workwear that performs as it should and lasts for ages, let's talk.

SIMPLE 3-STEP PROCESS

We understand you've got work to get on with, which is why we've made the process of ordering workwear and custom uniforms for your team as simple as possible. If you'd like to discuss any of our products, have any questions, or require special assistance, please contact our team at sales@bushbuck.com We'll always do our best to find the best solution for your business.

BUSHBUCK

145gsm honeycomb fabric infused with charcoal

Breathable, moisture wicking and odour resistant

APEX BASELAYER

COOL | COMFORTABLE | BREATHABLE

Apex Tee

APEX TEE

APEX QTR ZIP

DESCRIPTION

Our Apex Baselayer range is a technical fabric that's engineered to keep you cool, dry and protected in the summer heat. Made from a unique bamboo charcoal-infused honeycomb fabric, these tops have excellent moisture wicking and thermal regulating properties. The Apex range is ideal for summer conditions when staff are working up a sweat, but can also be used as an all-season bottom layer. The Apex Armour long sleeve top includes hard-wearing, abrasion-resistant cotton canvas sections in high-use areas (shoulders, arms, upper and lower back), making it a good option for rigorous physical labour.

FEATURES

- 145gsm honeycomb fabric
- 125gsm mesh vent underarm
- Bamboo charcoal infused
- Moisture wicking
- Quick-drying
- Cooling properties
- Highly breathable
- Odour-resistant
- Antimicrobial properties
- UV protection
- Comfortable relaxed fit
- Ideal under garment
- Tough armour panels (Apex Armour Only)

APEX CREW

APEX ARMOUR

Breathable, UV Resistant Fabric

**COMBAT
160 TEE**

**COMBAT
200 HALF-ZIP**

**COMBAT
200 HOOD**

**COMBAT
200 LEGGINGS**

DESCRIPTION

Our cutting-edge Combat Merino range combines the comfort, breathability, warmth and moisture-wicking properties of merino wool with the hard-wearing durability of Cordura® nylon. Combat Merino is a unique durable merino fabric that's exclusive to Bushbuck. It looks, feels and performs like traditional merino clothing, but it can withstand a lot more punishment. Independent testing has found Combat Merino is more than 5x more abrasion-resistant than 100% merino and superior to many heavy-duty commercial fabrics. Combat Merino is an excellent all-season option for tradies and primary sector workers. It will keep you warm when it's cool and cool when it's warm.

FEATURES

- 200gsm Merino Blend
52% Merino Wool 18.5, 48% Cordura® Nylon
- Abrasion Resistant
- Moisture Wicking
- Zipped Chest Pocket
- Quick Drying Fabric
- Naturally Odour Resistant
- Highly Washable
- Mesh Vent Sections for
- Breathability
- YKK Zippers

Combat Merino
200 Half-Zip

Combat Merino's excellent thermal regulation properties make it a great option for staff who are exposed to the elements year-round. It will keep you warm when it's cool and cool when it's warm.

Combat Merino looks, feels and performs like merino, but it's built tougher. Testing has found it's more than 5x more abrasion-resistant than 100% merino.

AS SHOWN ABOVE THE ABRASION RESISTANCE OF BUSHBUCK COMBAT MERINO EXCEEDS THAT OF THE HARD WEARING COMMERCIAL FABRICS.

Combat Merino
200 Half-Zip

Lightweight, packable and warm

Excellent warmth-to-weight ratio

VERTEX FLEECE

WARM | COMFORTABLE | BREATHABLE

VERTEX FLEECE TEE

VERTEX FLEECE HALF-ZIP

DESCRIPTION

Our Vertex Fleece range is toasty, lightweight and versatility — everything you want in a quality fleece. It has a high warmth-to-weight ratio, making it an ideal mid-layer for chucking on over your Apex Baselayer or Combat Merino top in cooler weather or wearing under your waterproof jacket. Comfortable and functional, the Vertex Fleece is a handy piece of kit that provides plenty of warmth without the bulk and restriction of more heavy-duty pullovers, giving you greater control over the task at hand.

FEATURES

- Lightweight fleece
- YKK chest pocket zip
- High warmth-to-weight ratio
- Easy to pack away

VERTEX FLEECE HOOD

Ranger Bushshirt

RANGER BUSHSHIRT

FRONTIER PULLOVER

HUNTSMAN BUSHSHIRT

DESCRIPTION

Bushbuck has several heavy duty fleeces and jackets engineered for workers who are out there in the thick of it — rain, hail or shine — all year round. The Frontier Pullover with zip-out hood is a technical fleece that's engineered to work as hard as you do.

Constructed using Bushbuck's WindArc Technology, the pullover is 100% windproof, breathable, lightweight and ultra-durable. The Ranger and Huntsman Bushshirts are also 100% windproof, extremely warm and water resistant, making them ideal for farm workers, forestry gangs, or anyone who's exposed to wild weather.

FEATURES

RANGER

- Windarc technical membrane, windproof & breathable
- Heavy-duty adjustable cuffs
- 100% Windproof
- ¼ Zip with domed storm flap

FRONTIER

- Windarc technical membrane, windproof & breathable
- Nylon canvas on high wear areas
- Tall collar, with zip-out stowaway hood
- Large magnetic chest pocket
- ½ Zip neck

HUNTSMAN

- Windarc technical membrane, windproof & breathable
- Rip-resistant durable tricot material
- Adjustable hood system
- Practical ¾ sleeves
- Full lace up neck

WindArc windproof membrane

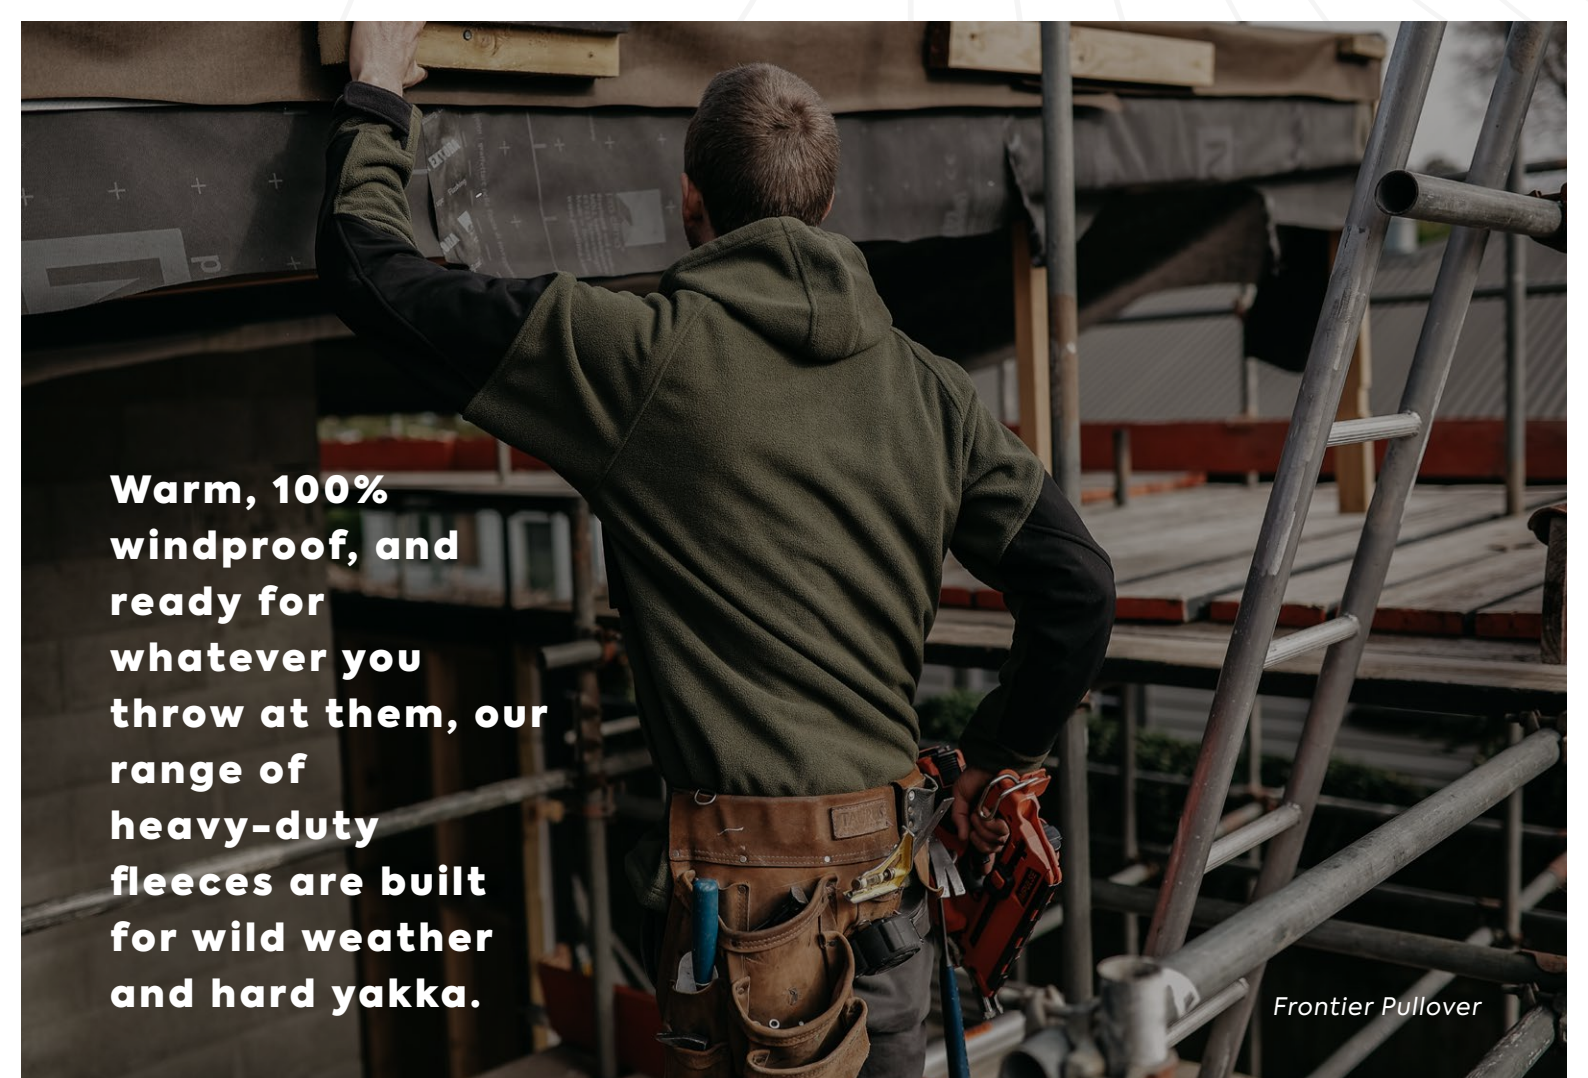

Durable Cordura® nylon

WET WEATHER GEAR

WATERPROOF | WINDPROOF | DURABLE

Defender Jacket & Pants

**DEFENDER
JACKET**

**DEFENDER
PANTS**

**TYPHOON
JACKET**

DESCRIPTION

Our waterproof jackets are built for heavy rain, high winds, and the wildest weather, providing the highest level of protection for you and your crew. The Bushbuck Defender Jacket is a tough, technical, 100% waterproof jacket that's built for the rigours of the great outdoors. The matching Defender Pants are also 100% waterproof and windproof, ultra-durable, and highly functional.

The Typhoon Jacket is our most waterproof jacket yet with extra length to keep your bum and upper legs dry. All our wet weather layers utilise StormArc technology, a three-layer technical fabric that's waterproof, windproof, breathable and durable. When the proverbial is hitting the fan, you can count on Bushbuck's wet weather gear to have your back.

VENTURE PANTS 2.0

LIGHTWEIGHT | BREATHABLE | COMFORTABLE

Venture Pants 2.0

VENTURE PANTS 2.0

DESCRIPTION

The new-and-improved Venture Pants 2.0 deliver unbelievable comfort and functionality. One of the biggest complaints about workwear pants is that they're stuffy and restrictive. The Venture 2.0 softshell pants are surprisingly lightweight and made using a breathable four-way stretch fabric for all-day comfort.

They have an extra thick bash pad around the ankles, reinforced stitching in high-use areas for added durability, zipped thigh vents for offloading heat, and six zipped pockets so your essentials are always within reach. Treated with DWR for water repellency, the Venture Pants 2.0 are truly all-season pants that are up to whatever task you throw at them.

FEATURES

- 4-Way stretch face fabric
- Articulated knee
- Side-leg ventilation zip
- Stormflap pockets
- Handy front leg pockets
- YKK zips
- Double thickness bash pad
- C6 DWR water repellent coating
- Quarter leg zip

WARM | DURABLE | WATERPROOF

POLAR X DOWN PUFFER JACKET

BAYLEAF GREEN
& CHARCOAL
COMING IN 2023

FURNACE LT WATERPROOF DOWN PUFFER JACKET

IGLOO WATERPROOF DOWN PUFFER JACKET

DESCRIPTION

Our range of down puffer jackets sets a new standard for warmth, comfort and durability — with two 100% waterproof options. The Polar X puffer is one of our most popular products, used by companies all across New Zealand. It's engineered for maximum warmth and comfort and has a durable, rip-resistant canvas face fabric treated with DWR for water resistance. The Furnace LT and Igloo puffer jackets are both 100% waterproof and seam sealed, which means they can be worn during heavy rain and snow. Unlike most puffer jackets that rip easily and can't get wet, Bushbuck puffers are made to go to work regardless of the forecast or the job at hand. All Bushbuck puffers are made using down that meets the international Responsible Down Standard.

FEATURES

POLAR X

- 260g / 800 loft duck down (ethically sourced)
- Canvas face fabric C6 DWR coated
- 100% Windproof
- Nylon taffeta lining
- Zip off adjustable hood with peak
- Water resistant

FURNACE

- 160g / 850 loft duck down (ethically sourced)
- 100% Ripstop face fabric
- 100% Waterproof
- Fusearc fused seams (waterproof)

IGLOO

- 320g / 800 loft duck down (ethically sourced)
- Fusearc fused seams (waterproof)
- Canvas face fabric C6 DWR coated
- 100% Waterproof
- Dual cuff sealing system

SHORTS

COMFORTABLE | FUNCTIONAL | LIGHTWEIGHT

Trek 2.0 Shorts

TREK 2.0 SHORT

DRI-SEAT SHORTS

DESCRIPTION

Tough, comfortable, functional, and water-repellent, Bushbuck shorts are made for long days and hard work. Made from durable, lightweight, breathable materials, our shorts are everything stobbies wish they could be. The technical engineering specs are all well and good, but the most important thing is that our shorts feel good and provide plenty of flex where it counts. Whether you're working outdoors, in hot weather, or simply want to maximise freedom of movement on the job, Bushbuck shorts are a great addition to your workwear wardrobe or company uniform. One thing's for sure, your team will be in no rush to get out of their work clothes at the end of the day.

FEATURES

TREK 2.0 SHORTS

- Strong Polyester Micro Yarn (longer life)
- Zipped Pockets
- Moisture Wicking
- Low Odour
- C6 DWR (Durable Water Repellent)
