

LX3DR

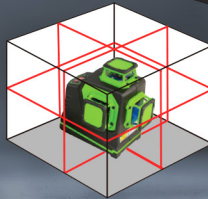

- Multi-line Laser | Red Beam

The line laser with everything. With 3-360° lines with an offset so that all lines are uninterrupted simultaneously the Imex LX3D in red and green beam is the ultimate in interior laser levelling with world first lithium and alkaline batteries, accurate lines long range, and outdoor mode.

The LX3D has the longest run time in it's class and is also a drop test and oven temperature winner. The ultimate in interior laser levelling.

Red Beam

Optional Detector to 80m

Lithium Battery with USB Charger Port

hard carry case

Ceiling bracket

Magnetic bracket

SPECIFICATIONS LX3D

Light Source Diode	635nm Red, 532nm Green
Output	Laser Class II
Accuracy	+ / - 2mm @ 10m
Damping Type	Magnetic Compensator - Self Levelling
Function	1 Horizontal - 360°, 2 Vertical - 360°
Working Distance	30m, 80m with detector
Hours of continuous use	Red Beam - 45hrs one beam, 20hrs all beams Green Beam - 22hrs one beam, 8hrs all beams
Batteries	Lithium-ion 3.7V, Alkaline 8Ah
IP Rating	IP54
Operating Temperature	-10°C to +50°C

012-LX3DR - Red beam, 012-LX3DG - Green Beam,
• For outdoors to 80m on 012-LX3DRD or 012-LX3DGD
