

# Propane Gas Adapter

We have supplied a propane gas adapter with the **Kovea Scout Burner**. The adapter will allow the use of a 1 pound propane bottle or a Coleman Hose Adapter if using a larger gas bottle.

The **Kovea Scout Burner** can run on either a **Butane Gas Bottle** or with the **Adapter** added to the bottom of the burner; use the **Propane Bottle**.

To use the **Propane Bottle**, screw the adapter into the burner and screw the propane bottle into the adapter.

To use the **Butane Bottle**, screw the butane bottle directly to the bottom of the burner.

Two Gases that can be used with the Kovea Scout Burner.

Butane bottle does not need the adapter.

The Adapter is used with the Propane Bottle
