

CARE / THE LEVIATHAN COLLECTION

Our Leviathan collection of tables and benches have a matte, water-based lacquer on top of the smoked and sandblasted acacia wood. We recommend that you regularly wipe the surface with a damp cloth to remove any dust and dirt. Wipe up spills with a damp cloth and do not leave liquids to sit on surface. Please do not use cleaners or polishes, as these may cause permanent damage or color variation to your furniture. Take care when placing or moving unglazed ceramics and other items with an irregular base finish as they may scratch the surface. Protect from direct or reflected sunlight as the tone of the wood will alter over time with exposure to UV light. Depending on the position of the piece and the conditions of your home, we recommend re-oiling once a year or as needed to freshen up your Leviathan piece. We recommend [Orange Oil](#) which is a natural product that polishes and replenishes wood finishes. With a little bit of care, your solid wood furniture will be part of your home for many years to come.
