

THE N701 SOFA

CREATE  
YOUR OWN  
SET-UP

# MODELS

To create the modular sofa of your dreams, versatility is key. That is why the N701 comes in different sizes & types: a 1-2-3 seater, two types of corner elements and even a footstool. However you choose to arrange them, the N701 always looks striking.

3 seater

# DENSITY

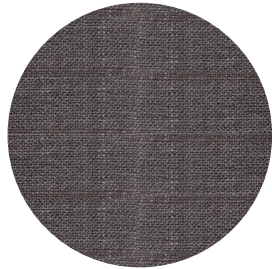

The N701 sofa consists of a mixture of foams, allowing every nook and cranny to be evenly filled. Firmly covered with upholstery or leather, the finished result is 100 % support and cosiness wherever you choose to sit.

# FABRIC

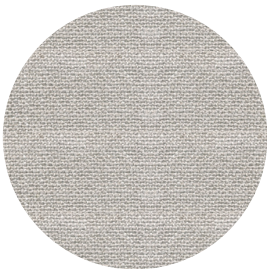

The blue, dark grey and beige versions of the N701 consist of soft upholstery. The old saddle variant, however, is 100 % aniline leather.

## DESIGN

The inviting design by Jacques Deneef oozes comfort and relaxation. Notice its quilted seating yet smooth sides, beautifully connected by subtle seams. This mix of clean lines gives the N701 its exceptional look.

# MODULARITY

By combining the different pieces and sizes, you have limitless possibilities when it comes to creating your own unique setting.

Thanks to the sofa connectors, every N701 element fits the other perfectly. You can literally (re)arrange the sofa to your heart's content.
