## Features and Functionality

While pushing the boundaries of sophisticated style and superior quality, functionality is evident in all designs and manufacturing aspects of the Kontour Towel Warmer. Throughout this brochure, key functionality benefits will be brought to your attention.

Look out for the icons below:

**110V Electric Hardwired:** The Electric Hardwired models incorporate a slim, concealed cabling option using our unique hardwire design. The result is a neat, clean appearance adding functionality to your space. The hardwire exit location is at the bottom right of all hardwired towel warmers.

**110V Electric Plug-In:** These Electric Plug-In models incorporate a 5' power cord and can be simply plugged into any standard household plug-in.

**Illuminated On / Off Switch:** Kontour's concealed On / Off switch is the most elegant of its kind, and will guarantee warm towels when you need them.

**Adjustable Feet:** Gone are the days of wobbly unstable towel warmers. All Kontour Freestanding Towel Warmers incorporate adjustable feet.

**Two Year Warranty:** Kontour's high manufacturing quality and unsurpassed finishing combine to bring you a 2 year manufacturer's warranty on all products.

**Wall Brackets Included:** Robust metal wall brackets come standard with all Wall Mounted Towel Warmers, and exude quality and durability coupled with a timeless design.

## Why Do I Need a Towel Warmer?

Imagine stepping out of your shower or bath and into a gloriously warm, fluffy towel every time. There's nothing quite like it, and we're sure you'll agree. With a heated towel warmer from Kontour in your bathroom, you get a unique and stylish bathroom accessory that adds a touch of luxury to your everyday living.

Towel warmers were once perceived as a luxury item that was out of the range of many household budgets. Kontour has changed this, and towel warmers are no longer thought of as an extravagant luxury, but now an affordable necessity.

## Committed to Quality

With an inspiring range of modern and classic towel warmers, Kontour sets a new benchmark in performance and convenience. With the LUXURY OF A TOWEL WARMER from Kontour, you'll enjoy WARM, DRY TOWELS after every bath or shower.

Heated towel warmers have become an essential part of any modern bathroom. They offer the convenience of not only drying wet towels, but also giving you the luxury of fluffy, sumptuous warm towels all year round. The varied selection offers you a choice of designer towel warmers for any décor. Each has been created for a specific look and feel to suit the interior design needs of architects, interior designers and stylish individuals who appreciate sophistication and substance.

Charged with Euphoria...as the new Kontour slogan suggests, the Kontour range is manufactured with a dry wire heating element, and satisfies the stringent requirements of CSA approval. Kontour towel warmers are meticulously crafted to a very high level of quality and features a durable stainless steel construction that is mirror polished and hand buffed for an exceptional finish. The end result is very much like chrome, yet won't chip or peel, and provides towel warmers that will keep their good looks for many years to come.

## Convex

Convex by Kontour combines the simplicity of a classic towel warmer rack with the added appeal of subtle, curving lines. Warm and dry several towels at once on its gently curved, polished chrome towel bars, conveniently mounted on your bathroom wall. Convex is an electric towel warmer with plug-in or hardwired models that work with standard household power sources. Add unmistakable style and luxury to any modern bathroom with Convex.

	Code	Finish	Power (Volts)	Watts	Weight (lbs)	Width x Height (Inches)	Projection (Inches)	
	K4043E	Chrome	110V	144W	8.8	24 x 40	5	<b>\$539</b>
	K4043W	Chrome	110V	144W	8.8	24 x 40	5	<b>\$549</b>

## Angle

The wall-mounted Angle towel warmer by Kontour combines the best of both worlds—it's a convenient towel warmer shelf plus heated towel bars below it for maximum capacity. Fold and stack towels on top to store and warm them or hang them below to dry. Angle features the same chrome finish to complement your other bathroom accessories, and it's available in plug-in or hardwired models to meet your installation requirements.

	Code	Finish	Power (Volts)	Watts	Weight (lbs)	Width x Height (Inches)	Projection (Inches)	
	K3023E	Chrome	110V	165W	10.5	24 x 40	10	<b>\$639</b>
	K3023W	Chrome	110V	165W	10.5	24 x 40	10	<b>\$649</b>

## 7 Day Programmable Control

With a programmable control for your towel warmer, your towels are warm and ready as soon as you step out of the bath.

## Frequently Asked Questions

### 1. Why do I need a towel warmer?

A towel warmer means warm fluffy towels that provide the ultimate in warmth and comfort for your bathroom. Dry and hygienic, your towels will always be clean and fresh.

### 2. How long does it take for the towel warmer to heat up?

Kontour Towel Warmers will become warm within 5 minutes, and will heat to maximum temperature within 10 minutes.

### 3. How long is the cord on electric plug-in towel warmers?

The cord on all electric plug-in towel warmers is 5'.

### 4. Can I connect my towel warmer to a control?

Yes, Kontour Towel Warmers can be connected to a programmable control – refer to the top of page 11 to order.

### 5. Do all horizontal and vertical bars heat up?

Yes – All bars throughout the towel warmer heat up.

### 6. What certification does the Kontour range of towel warmers have?

Kontour towel warmers meet the highest certifications, and carry CSA approval.

### 7. Can the Kontour towel warmers use regular 110V household power?

Yes – All 110V plug-in or hardwire towel warmers connect to regular household power.

### 8. How hot will my towel warmer get?

Kontour towel warmers heat up to a temperature that is too hot to lay your hand on for a period of time, but not hot enough to burn when touched.
