

BARREN

AIR HOCKEY

You won't be able to keep up with the pace of play on the ultra-fast Barren Air Hockey Table. This table features all the characteristics of all our Rustic Series items including all wood construction with finger joint design, rustic pine or ash wood finishes, exposed distressed metal accents and a look second to none in the industry.

The oversized 110 volt motor ensures speedy puck movement, and the aluminum inner lip keeps the puck ricocheting off the walls. In addition, the aluminum lip keeps the inner surface from chipping like most lower end tables tend to do. The table comes with everything you need including 2 oversized pucks and 2 pushers. This table will provide endless fun for the entire family.

Shown in Gunshot finish.
