It's top and bottom cabinets provide plenty of storage for all your bar needs including a wine bottle storage area and hanging racks for stem glassware. The bottom cabinet has a key lock to secure the contents. There is a soft close drawer for those bar extras like openers and dice. What really makes this bar unique is the pull out shelf and LED lighting to provide that always needed space for mixing up the perfect cocktail. Modern design with multiple available rustic finishes makes this a bar that works in all styles of design. I'll take a double please.
