12' Cover - 106630

Like any outdoor product, keeping your outdoor pool table or shuffleboard stowed under a waterproof cover will shelter it against the elements, thus prolonging the life of your investment. Our covers feature waterproof material that is draped to the ground to protect the entirety of your table. Also included are a blow up ball to allow you to tent the table and let water run off instead of puddling, and bags to fill with weight to attach to the straps on the outsides of the cover to keep your cover in place during windy conditions.
