- ~ All items marked with \star in catalog are new this season.

About Us

yūgen / yoo-gehn / n. : an awareness of the universe that triggers emotional responses too deep and mysterious for words

Lauren Beacham (Owner)

Yūgen was founded by Lauren Beacham in 2007, and was a creative outlet after earning her BFA in photography to bring her Polaroids and jewelry together. After 4 years of significant growth, Lauren left her job as a gallery director to run her business full time. In the years since, she's had the help of several wonderful assistants who have brought love and life into the business. Beacham now operates Yugen as the sole maker and designer in her handcrafted business.

We at Yūgen are here to provide excellent customer service, beautiful quality products, and a welcoming atmosphere. We are here to celebrate the universe with you and your clients - its literal beauty, incredible mystery, and the people and places we find as our home within it. There is nothing quite like capturing the magic of the cosmos and turning it into dreamy, wearable treasures; we hope you agree and look forward to welcoming you into our retailer community.

Ordering Info

HOW TO ORDER | We accept itemized purchase orders through email (hello@yugenhandmade.com). When submitting a PO through email, please specify the galaxy image you would like on pieces marked with a "*" in our catalog, and if the piece is offered in multiple finishes, please specify the finish you would prefer on your pieces as well. All of these details can be found in the description of each individual product in this catalog. If you are not sure where to begin, please email us! We are happy to direct you to one of our popular starter kits, or hand curate a collection just for you.

PAYMENT | We accept mailed checks or secure bank transfers through our Quickbooks invoices. We do not offer credit card payments for wholesale orders submitted through email at this time. If you require payment by credit card, please contact us to discuss options - we can either assess a small processing fee or direct you to order online through one of our wholesale marketplace partners.

PACKAGING | Our standard packaging for wholesale orders consists of the pieces being individually wrapped in clear cellophane bags with care information. If you need gift boxes, we offer plain kraft boxes for \$0.60 each or branded boxes for \$0.75 each. Please include this requested upgrade in your purchase order.

JEWELRY CARE | Our jewelry is handcrafted to order and not waterproof. We include a care card that states this in all of our packaging for the convenience of your customers. We also recommend to your customers that storing our shiny finish jewelry in an airtight bag when not being worn will slow oxidation and tarnishing.

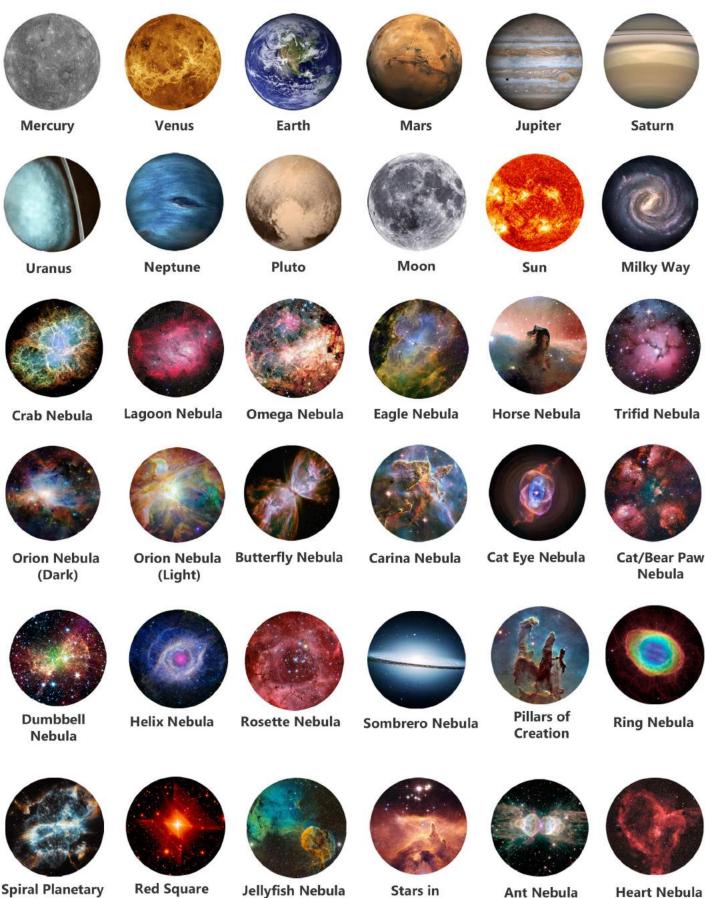

METEORITE & NATURAL STONES | Please note: when purchasing pieces that are created with natural stones or meteorite, each stone will vary. We enjoy the uniqueness this brings to each individual piece and how they resonate with the wearer, but the details of pieces may slightly vary from what is pictured in this catalog.

PRODUCTION & MOQ | Our first order minimum is \$200 before shipping. With some exceptions (please ask!), payment is required up front for the first order through secure bank transfer or check. After a successful first order, there are no minimums and payment terms are available with references. Our standard production turnaround is 1-2 weeks from the time the order is submitted. This timeline may vary based on the time of year, our workload, and the size of your order. Please communicate your needs and timeline with us to ensure we can meet your requirements when an order is submitted.

CATALOG UPDATES | We try to update our catalog twice a year. Please visit **yugenhandmade.com** and navigate to our wholesale page for our most up-to-date catalog link at any time!

Available Galaxy Designs

Please use this guide when choosing the custom galaxy image for any pieces marked with "*" in our catalog.
