

The logo for 'bamboo' features a stylized bamboo leaf icon to the left of the word 'bamboo' in a lowercase, sans-serif font. A registered trademark symbol (®) is located at the top right of the word.

bamboo®

A close-up photograph of a person's torso wearing a blue plaid jacket. A maroon-colored fabric pouch is attached to the jacket, containing bamboo cutlery: a spork, a fork, and a spoon. The pouch is secured with a grey cord. A Patagonia brand tag is visible on the jacket's pocket.

# How we work

---

## Getting outdoors with bambu®

A natural choice for eating and cooking tools whether you are venturing out-of-town, to the outback, or simply to the backyard. We've been helping people cook and eat more sustainably in the kitchen, in the home, and in the outdoors since 2003.

## Plastic free, plant-based solutions

Our products and our values not only send the message that plastic is unacceptable, but that solutions lie in, renewable, biodegradable, and compostable materials. Whether you're on a picnic or hitting the trail we'll help you fulfill the "leave no trace" experience.

## Tested and certified, organic, compostable & biobased

Since 2006, bambu has certified its source of bamboo.

## Smart packaging or even better - no packaging at all

Packaging that sells harder with a smaller footprint. We're working to remove every bit of plastic from our packaging. Our most popular items are also available without packaging.

## Carbon Neutral

bambu offsets the carbon emissions generated to ship our products from source to our warehouse.

## B Corp™ certified business is good business

bambu is a part of a global movement of responsible businesses doing good. Good business for you and your customers.

Biobased Certified

# Renewable Ideas®

## *Plant Based Solutions*

### **Locally Sourced**

At bambu®, it all begins with the materials we use. Our renewable and reclaimed materials are sourced locally in China and not found in abundance in North America.

# Certified Organic & Biobased

## *Transparency & Assurance*

### Raw Material Source

Certifications and standards advance sustainable business practices and provide transparency. Since 2006, bambu has certified its source of bamboo. Today our entire range of utensils is certified by the National Organic Program (NOP), the only utensils to receive this designation. Moreover, our disposable and compostable Veneerware® is made from certified organic sources and has also earned USDA 100% Biobased certification.

# Organic Cooking Tools

*Versatile & Durable*

Enjoy your outdoor cooking experience with all natural cooking tools. These handsome bamboo tools are the only outdoor cooking utensils to carry the USDA certified organic seal.

These cooking tools are unique because they are made from a single piece of certified organic bamboo; No glues, no lacquers, no plastic. Simple and durable, and hand finished with organic seed oil.

Unlike metal, bamboo does not conduct heat or cold.

A great way to get in touch with nature is with 100% all natural, certified organic cooking tools.

# Compostable Plateware

*Sturdy, Strong & Eco-Cool*

28

From the campsite to the backyard, or for any outdoor occasion, we offer a full range of compostable plates, cutlery and serveware.

Veneerware® is made from 100% organically grown bamboo (certified by LETIS). Veneerware is also USDA Biobased Certified (100%), and approved for composting (tested by Cedar Grove Composting).

Although designed for single use, our dinnerware is durable enough to get multiple meals from our plates and cutlery. And that's great with us.

And our cutlery isn't that flimsy type. Take with you, pack it up, or set up the picnic table.

## Partnerships

We work together with organizations that are dedicated to restoring and protecting our environment. These organizations share our commitment to building healthy eco-systems. Below is a partial list of the groups that are supported by bambu®.

PLEASE  
DON'T BE A SURFACE  
POOPER. DIG A HOLE  
AND BURY YOUR POOP  
AND PAPER AWAY FROM  
CAMP SITE + WATER.  
TAKE YOUR TRASH WITH  
YOU AND LEAVE THE  
SITE CLEANER THAN  
YOU FOUND IT.  
DON'T RUIN A GOOD  
THING FOR EVERYONE  
♡

## Back to Nature

With roots in the Pacific Northwest, we have a strong connection to and respect for the natural environment. Our appreciation for the natural world inspired us to leave our corporate careers and focus on creating thoughtful products made from renewable resources.

## Renewable Ideas®

Central to our core purpose, is creating product solutions that rely less on resource-intensive, petroleum-based resources and more on plentiful plant-based materials.

36

## Our Company Values

We set out to create a business that reflected our personal values.

- Turn people onto renewable materials and discourage the use of plastic and other harmful materials
- Treat people fairly and provide opportunities to others
- Support organizations doing good work and give back to the causes that matter
- Create products that are affordable and accessible

## Conservation

It's all connected. Limiting wasteful consumption makes a difference. And small changes can have profound effects on our eco-system. For every product sold, bambu® contributes to organizations protecting and restoring the natural environment through our membership in **1% for the Planet.**

We thank you for supporting what we do.

*Rachel, Jeffrey and the bambu team.*
