The All-in-One Global PCI DSS Policies Packet

The PCI Policy Packet Compliance Toolkit - **STANDARD Edition**, for each industry, is an immensely comprehensive package containing over **800 +** pages of PCI policies, procedures, forms, checklists, templates, and security awareness training documentation for ANY organization needing to become PCI DSS compliant. It's an incredibly detailed and in-depth set of documents essential for developing the dozens of much-needed operational and information security policies and procedures, and much more.

You'll Receive a Comprehensive Zip File Containing the Following Ten (10) Sections:

**Essential for PCI
DSS Compliance**

**Used Extensively By
Fortune 500 Companies**

**Internationally Recognized
Security Documents**

**Security Awareness
Training Material Included**

**PCI Project Management
Template Included**

Section I: A detailed overview for becoming PCI DSS compliant: Our detailed overview page is a step-by-step list of actions to be undertaken by your organization for ensuring all aspects of PCI compliance have been thoroughly understood and met. Brief, yet detailed and easy-to-read, the roadmap effectively distills, clarifies, and simplifies issues relating to PCI compliance, giving you a comfort level you deserve.

Section II: PCI DSS Specific Policies and Procedures Manual: Each of the PCI DSS reporting requirements - from the Self-Assessment Questionnaires to an actual Level 1 onsite assessment by a PCI-QSA requires PCI specific policies and procedures. That's exactly what you'll receive in Section II - over 300 + pages full of policies, procedures, forms, checklists, and other supporting documents aligned DIRECTLY with each of the twelve (12) PCI DSS reporting mandates.

Section III: PCI DSS Provisioning and Hardening Documents: This Section is not included in the Standard Edition package.

Section IV: Information Security Policies and Procedures Manual: The Payment Card Industry Data Security Standards (PCI DSS) specifically states for Requirement 12.1 to "establish, publish, maintain, and disseminate a security policy that...addresses all PCI DSS requirements".

Section V: Security Awareness Training Packet & Employee Quiz: Training all employees on critical security issues is a strict PCI requirement, but also a best practice you should be doing. Our security awareness training packet includes a professionally developed PowerPoint Presentation (105 slides), in-depth employee awareness training manual (60 pages long), checklists, a certificate of completion template, and more. You'll also receive a thirty (30) question employee quiz consisting of multiple choice, fill in the blank, and True | False questions for testing employees' knowledge on essential security best practices.

Section VI: PCI DSS Project Management Template: The PCI DSS project management template is an incredibly helpful tool for ensuring you actively track monitor, and assess your overall PCI DSS certification progress. A must for any merchant or service provider serious about PCI compliance in today's world.

Section VII: Business Continuity and Disaster Recovery Planning (BCDRP) Manual: Our comprehensive fifty-two (52) page BCDRP documentation template includes all critical policies, procedures, and supporting initiatives for allowing merchants and service providers to properly plan and respond to adverse incidents and catastrophic events. Authored by former military & current cyber security experts, it's an absolute must-have in today's world.

Section VIII: Risk Management and Risk Assessment Template Packet: Undertaking an annual risk assessment is a strict mandate for PCI compliance and our easy-to-use risk assessment template packet delivers in a big way. Developed by industry leading PCI experts, the risk assessment template packet covers all categories of risk - offering straight-forward guidance and expertise for ensuring organizations perform the necessary steps and supporting measures for a "true" risk assessment process. The risk assessment template packet offered also helps in meeting many other compliance mandates calling for similar practices, such as HIPAA, HITECH, and financial services.

Section IX: Incident Response Plan Packet: Data breaches, cyber security threats, and many other malicious exploits are challenging organizations like never before. It's the main reason why every organization should have a well-defined and in-depth incident response plan in place - one complete with documented policies and procedures, along with essential forms and templates to be used as necessary. Additionally, incident response measures are a strict mandate for PCI DSS compliance.

Section X: Fraud Policy and Procedures Manual: From petty larceny crimes to falsified financial statement reporting, cyber theft, and more, fraudulent activities are alive and well, being played out every day and costing businesses billions of dollars each year. The seriousness of fraud itself along with the need for organizations to have a clearly defined plan of action for fighting fraud resulted in our award winning, 100 + page Fraud Policy and Procedure Manual, which is now yours!

Section XI: Third-Party Service Provider Monitoring Packet: This Section is not included in the Standard Edition package.

Section XII: PCI DSS Certificate of Compliance Template: You'll also receive a professionally developed certificate of compliance template to be completed and displayed after successfully meeting all stated requirements as mandated by the Payment Card Industry Data Security Standards.

Section XIII: Free Updates for Version 3.1 PCI. This Section is not included in the Standard Edition package.

Together, all ten (10) sections provided in the STANDARD Edition become your authoritative guide and policy documentation for helping achieve PCI DSS compliance in an efficient, cost-effective, and comprehensive manner. You'll be purchasing much more than just PCI policies and procedures, you'll be obtaining high-quality documentation that provides essential ingredients for PCI success, now and in the future.
