At in2green, we are committed to creating high design products that are both sustainable and USA made since 2006. We hope that our customers join us in this ongoing journey to purchase thoughtfully with an eye towards the environment. It is wonderful to know that in2green will leave a legacy of intentional product development that both our children and customers are proud of.

AUBERGE RESORT: BISHOP'S LODGE SANTA FE, NEW MEXICO

In2green has been creating custom throws and bed scarves for the luxury resort and boutique hotel market for over 10 years. While each resort offers its own unique style, our custom bed scarves serve as the finishing layer, the art on top of the bed.

After fielding numerous requests from hotel guests, we are now introducing our own exclusive collection of modern eco bed scarves designed to elevate your bedroom while minimizing environmental impact. Like all in2green products, our bed scarves are made in the USA and can be customized, with small minimums, in a variety of sustainable knit constructions.

Master Artisan Collaboration

ARTIST COLLABORATION

“It’s wonderful to partner with a brand that has shared values (and is also female-founded). in2green’s blankets are a perfect example of a sustainable product that’s washable, durable and will be cherished for a long, long time.”
