

Product Development Internship

As a Product Development Intern, your responsibilities will include working with the product development team on design, sourcing and manufacturing processes.

- Communicate and follow-up with vendors, mills and business partners on daily basis
- Monitor, track and manage critical product development and production calendar milestones
- Generate accurate specifications for individual samples and production orders
- Process, organize and track outgoing orders and samples
- Manage first sample production and quality to meet short term critical deadlines
- Manage data for weekly production meetings, including production work in progress
- Manage additional projects as assigned

Successful candidates should have the following knowledge, skills and abilities:

- Bachelor's degree or expected graduation in Apparel Design, Product Development, Fashion Merchandising or related field
- Strong attention to detail and excellent follow-through
- Working knowledge of apparel construction and components
- Working knowledge of industry standard programs such as Adobe Photoshop, Adobe Illustrator and PowerPoint
- Flexible to changing demands with the ability to manage multiple priorities and work independently in a fast-paced business environment
- Strong communication, organization and computer skills (Word, Excel, Outlook, and Power Point)
- Ability to proactively manage issues and problem solve
- Excellent communication skills; verbal, written and interpersonal
- CAD experience (ie. OptiTex, Gerber or Lectra) a plus
- Basic fit and patternmaking skills a plus

Interns are rewarded with merchandise discounts, a flexible working environment, and the opportunity to grow with a dynamic, entrepreneurial company.
