

MATBOCK

LIGHTER FASTER WARRIORS

2024 CATALOG

MISSION STATEMENT

Our mission is to design lighter and more practical equipment for every environment. Our personal experiences involving continued operations in multiple theaters have led to our basic foundation - ounces equal pounds and lighter warriors are faster warriors.

MATBOCK TABS

MATBOCK TABs are the latest innovation to replace conventional MOLLE straps for attachment to PALS. The TABs provide a secure attachment with less weight and are featured on most MATBOCK products.

US Patient number: 10143294

STEP 1

Insert TAB on tops of PALS

STEP 2

Bend TAB to insert lower securement to bottoms of PALS

STEP 3

Flatten TAB to secure pouch to PALS

STEP 4

Repeat for all tabs on back of pouch

TARSIER ECLIPSE ENGAGED

TARSIER ECLIPSE™

The Tarsier Eclipse™ is the most advanced night vision goggle (NVG) accessory on the market. Allowing the operator to see objects from 3" to infinity at the same time without loss of clarity, the Tarsier Eclipse™ incorporates a smooth action optical iris that can be adjusted quickly to fine tune the image depending on ambient light.

Additionally, the Tarsier Eclipse™ uses a high-quality Corning Glass sacrificial lens that is easily replaced without tools. The sacrificial lens protects your lenses from dust, dirt, impacts, and scratches preventing expensive repairs and downtime.

SINGLE - TARSIER ECLIPSE

Part Number
880021-1 (fits 37mm Outer Diameter)

Contains 1 x Tarsier Eclipse that fits these NVGs. AN/PVS6 || AN/PVS-7 || AN/PVS-7B/D || ANVIS-9 || AN/PVS-14 || NEPVS-14 || AN/PVS-23 (F5050YG) || DTNVG || DTNVS || BNVD 1531 || PVS-31D || RNVG

SACRIFICIAL LENS

Part Number
MB-TE-001

Unprotected NVG lenses can become scratched during combat operations, causing loss of clarity and expensive repairs. The sacrificial lens on the Tarsier Eclipse is made from high strength Corning Glass and will prevent damage to the objective lense from scratches, impacts, dust and dirt. No tools are required for replacement of the sacrificial lens. Simply pop out the old lens with your fingers and insert the new one.

WEAPON SIGHTS

ACQUIRE READ DEPLOY (ARD)

Part Number
MB-ARD

The Acquire Read Deploy (ARD) is a compact weapon sight for 40mm weapon systems and the Carl Gustaf Recoilless Rifle. It calculates the round used, reads the angle of the weapon, displays the range the projectile will hit and records your last three shots. It uses a CR123 lithium ion battery and attaches via a Picatinny Rail.

MULTIPLE WEAPON AIMING DEVICE (MWAD)

Part Number
MB-MWAD

The MATBOCK MWAD is a multi platform capable ballistic computer that provides the user the ballistic solution for Indirect Fire Weapons Systems. The MWAD provides real time information as well as full integration with a TAK plugin. When enabled, the TAK plugin will provide accurate wind data (when integrated with a Kestrel 5500 wind meter), Indirect Fire Targeting, and the ability to adjust functionality on an end user device (EUD). The system is compatible with 40mm, 60mm, 50cal, and various other Crew Served Weapon platforms.

LOW VIS TRAUMA MEDICAL POUCH

Part Number
MB-MED-MC/BK

Designed around a customer request to hold the Phokus Research Low Vis trauma kit, our medical pouch is ready to hold your medical supplies out of the way and secure until you need it. Two flaps on either side allow easy access in a rush and there are no complicated snaps, cables, or buttons making it easier to repack and close while on the small of your back. The back of the pouch is made from our laser-cut Ghost material and has cuts to allow vertical or horizontal belt carry, two columns of molle-compatible slits for various clips and strips, and of course our optional Tegriss molle adapter. The medical pouch can also be directly mounted to the Soteria belt cage using the horizontal belt pass-throughs. At a mere 1.6oz it's simple, multifunctional, and clean.

LIFT SYSTEMS

Originally developed in 2012, the LIFT (Lightweight Integrated Field Transport) system continues to be the standard in innovative medical transport gear. All litters in the LIFT series are easily deployable, highly functional and the lightest on the market.

S-LIFT

Part Number
AMTC-C1207-FG

This multi-use stretcher starts off as a large SSE or down man gear bag. Its shoulder strap allows the wearer to continue his primary job without the loaded bag interfering with his duties. When needed simply unzip the bag to turn it into a 6.5' stretcher with 5 pairs of carrying handles. When paired with the Combat Carbon Poles (sold separately) you have the lightest semi-rigid medical litter/stretcher available. The S-LIFT has a carrying capacity of 400 lbs.

Dimensions
Bag - 29" L x 24" W
Deployed - 78" L x 29" W

Weight

LIFT COUPLER

Part Number
490029

The LIFT Coupler is an 8-inch long carbon fiber tube that securely connects two (or more) Combat Carbon Poles together. The LIFT Coupler holds the poles together with hand-tightened friction seals that are easy to operate, small, and secure. With two poles connected by the coupler, operators will have the ability to reach 15 ft. This is ideal for elevating urban climbing hooks up to the rooftops to allow recce or roof teams the ability to gain the tactical advantage.

CARRIER & POUCHES

MATBOCK single and dual purpose pouches are extremely lightweight and made with simplicity and quality in mind. Many are backed by Tegriss to add rigidity in the right areas without compromising weight and efficiency.

BERSERKER V3 SAPI OR SWIMMER

Part Number
MB-BSKRV3-SAPI-MC/BK (S/M/L/XL)
MB-BSKRV3-SWIM-MC/BK (S/M/L/XL)

The Berserker carrier weighs only 21 oz and due to its hydrophobic and chemically resistant properties, it will stay that way. Dual radio pouches and side armor plate pockets are built-in. Adjustable shoulder pads have one wrap loops for drink tube and cable routing. The reinforced drag handle is made of our ultra strong Ghost material. The kangaroo pouch can be configured with the included triple mag insert, zipper insert, or a compatible insert of your choice.
