1.1 Product identifier

Product name: Aquacide Pellets
Product number: 10A,50A
Brand: Aquacide
Substance name: Aquacide Pellets

1.2 Other means of identification

Off white 1/2 inch pellet.

1.3 Recommended use of the chemical and restrictions on use

For use in Ponds, Lakes, Reservoirs, Bayous, Drainage Ditches, Non-Irrigation Canals, Rivers and Streams that are quiescent or slow moving. Other uses than stated is not advised.

1.4 Supplier’s details

Name: Aquacide Co.
Address: 1627 9th Street
          PO Box 10748
          White Bear Lake, MN 55110
          USA
Telephone: 651-429-6126
Fax: 651-429-0563
email: info@killlakeweeds.com

1.5 Emergency phone number(s)

1-800-424-9300

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

- Acute toxicity, oral (chapter 3.1), Cat. 4
- Eye damage/irritation (chapter 3.3), Cat. 1
- Specific target organ toxicity, single exposure (chapter 3.8), Cat. 3

2.2 GHS label elements, including precautionary statements

Pictogram

Signal word: Danger

Hazard statement(s)
H302: Harmful if swallowed
H318: Causes serious eye damage
H335: May cause respiratory irritation
Safety Data Sheet
Aquacide Pellets

H336
May cause drowsiness or dizziness

Precautionary statement(s)
P264
Wash … thoroughly after handling.
P270
Do not eat, drink or smoke when using this product.
P301+P312
IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell,
P330
Rinse mouth.
P501
Dispose of contents/container to an approved waste disposal site.
P280
Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
P261
Avoid breathing dust if present.
P271
Use only outdoors or in a well-ventilated area.
P301+P312
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P330
Rinse mouth.
P403+P233
Store in a well ventilated place. Keep container tightly closed.
P405
Store locked up.

2.3 Other hazards which do not result in classification

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Substance name
Aquacide Pellets

Hazardous components

1. Sodium sulfate
Concentration
> 30 - < 50 %
CAS no.
7757-82-6

2. Bentonite
Concentration
> 20 - < 40 %
CAS no.
1302-78-9

3. 2,4-DICHLOROPHENOXYACETIC ACID
Concentration
17.5 - 17.5 %
EC no.
202-361-1
CAS no.
94-75-7
Index no.
607-039-00-8

- Acute toxicity (chapter 3.1), Cat. 4
- Specific target organ toxicity, single exposure (chapter 3.8), Cat. 3
- Eye damage/irritation (chapter 3.3), Cat. 1
- Sensitization, skin (chapter 3.4), Cat. 1
- Hazardous to the aquatic environment - long-term hazard (chapter 4.1), Cat. 3

H302
Harmful if swallowed
H317
May cause an allergic skin reaction
H318
Causes serious eye damage
H335
May cause respiratory irritation
H412
Harmful to aquatic life with long lasting effects
4. LACTOSE
Concentration: > 1 - < 20 %
CAS no.: 63-42-3

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

General advice
Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

In case of eye contact
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

If swallowed
Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Personal protective equipment for first-aid responders
First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.

4.2 Most important symptoms/effects, acute and delayed
The most important known symptoms and effects are described in the labeling (see section 2.2) and/or in section 11.

4.3 Indication of immediate medical attention and special treatment needed, if necessary
No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media
Use water spray, foam, dry chemical extinguishers, or carbon dioxide.

5.2 Specific hazards arising from the chemical
May produce irritating or hazardous oxides.

5.3 Special protective actions for fire-fighters
Keep people away. Soak thoroughly with water to cool and prevent re-ignition. Use fine water spray or foam. Hand held dry chemical or carbon dioxide extinguishers may be used for small fires. Contain fire water run-off if possible.

Further information
As in any fire, wear approved self contained pressure demand breathing apparatus and full protective gear.
SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Isolate area. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause a slipping hazard. Ventilate area of leak or spill.

6.2 Environmental precautions
Prevent from entering into soil, ditches, sewers, waterways and/or groundwater.

6.3 Methods and materials for containment and cleaning up
Sweep up and shovel. Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Keep out of reach of children. Keep away from heat, sparks and flame. Do not swallow. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Keep container closed. Use with adequate ventilation.

7.2 Conditions for safe storage, including any incompatibilities
Store in a dry place. Store in original container. Do not store near food, foodstuffs, drugs or potable water supplies. Avoid temperatures above 150°C (302°F)

Specific end use(s)
Weed control in Ponds, Lakes, Reservoirs, Bayous, Drainage Ditches, Non-Irrigation Canals, Rivers and Streams that are quiescent or slow moving.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters
CAS: 94-75-7
2,4-D (Dichlorophen-oxyacetic acid)
Cal/OSHA: 10 mg/m3 PEL inhalation; NIOSH: 10 mg/m3 REL inhalation; OSHA: 10 mg/m3 PEL inhalation

8.2 Appropriate engineering controls
None required with normal household use.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection
Appropriate safety glasses or goggles can be worn to avoid accidental eye contact.

Skin protection
Long sleeved shirt, long pants, shoes plus socks.

Body protection
Wear clean, body covering clothing.

Respiratory protection
Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH.

Thermal hazards
No data available.
SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

- **Appearance/form**: Off white gray 1/2 inch pellets
- **Odor**: Mild Phenolic
- **Odor threshold**: No data available.
- **pH**: No data available.
- **Melting point/freezing point**: 140° C (284° F)
- **Initial boiling point and boiling range**: Not applicable.
- **Flash point**: Not applicable
- **Evaporation rate**: Not applicable
- **Flammability (solid, gas)**: Not applicable
- **Upper/lower flammability limits**: Not applicable/Not applicable
- **Upper/lower explosive limits**: Not applicable
- **Vapor pressure**: Not applicable
- **Vapor density**: Not applicable
- **Relative density**: > 1.5
- **Solubility(ies)**: > 50%
- **Partition coefficient: n-octanol/water**: log Pow: -0.83 Measured
- **Auto-ignition temperature**: Not applicable
- **Decomposition temperature**: 273.96° C (523.33° F)
- **Viscosity**: Not applicable
- **Explosive properties**: None
- **Oxidizing properties**: None

Other safety information
The physical data presented above are typical values and should not be construed as a specification.

SECTION 10: Stability and reactivity

10.1 **Reactivity**
None under normal use conditions.

10.2 **Chemical stability**
Stable under recommended storage conditions.

10.3 **Possibility of hazardous reactions**
None under normal use conditions.

10.4 **Conditions to avoid**
Exposure to moisture. High temperatures.

10.5 **Incompatible materials**
Do not store near acids, Strong oxidizing agents.

10.6 **Hazardous decomposition products**
Under fire conditions: Carbon dioxide, Carbon monoxide, Sulphur oxides, Hydrogen chloride.

SECTION 11: Toxicological information

Information on toxicological effects

**Acute toxicity**
Bentonite
LC50 Inhalation - Rat - >5.27 mg/l - 4 hour

Bentonite
LD50 Oral - Rat - >2,000 mg/kg

Sodium sulfate
LD50 Oral - Rat - >10,000 mg/kg

2,4-DICHLOROPHENOXYACETIC ACID
LD50 Oral - Rat - 639 mg/kg

**Skin corrosion/irritation**
Sodium Sulfate: No data for dermal but not expected to be of concern.
Bentonite: Not classified

2,4-DICHLOROPHENOXYACETIC ACID
LD50 Skin - Rabbit - > 5,000 mg/kg

Lactose: Not classified

**Serious eye damage/irritation**
Sodium Sulfate: May cause slight eye irritation
Bentonite: Dust in eyes will cause irritation.

2,4-DICHLOROPHENOXYACETIC ACID: Solid may cause irritation or corneal injury due to mechanical action.

**Respiratory or skin sensitization**
May cause slight skin irritation.

**Germ cell mutagenicity**
Not Applicable (testing negative)

**Carcinogenicity**
This product is or contains a component that is not classifiable as to its carcinogenicity based on its IARC, ACGIH,NTP.

**Reproductive toxicity**
(2,4-Dichlorophenoxyacetic Acid only) In laboratory animals, EXCESSIVE doses toxic to the parent animals caused decreased weight and survival of offspring.

**STOT-single exposure**
May cause respiratory irritation.

**STOT-repeated exposure**
In animals, effects have been reported on the following organs: (2,4-Dichlorophenoxyacetic Acid only)
Liver.
Kidney.
Gastrointestinal tract.
Muscles.
Observations in animals include:
Gastrointestinal irritation.
Vomiting.
Safety Data Sheet
Aquicide Pellets

Aspiration hazard
Based on physical properties, not likely to be an aspiration hazard.

SECTION 12: Ecological information

Toxicity
Sodium Sulfate:  
LC50 Fish: Pimephales Promelas 96 hours = 7960 mg/l
EC50 Algae: Nitzschia linearis 120 hours = 1900 mg/l

Bentonite:  
LC50: Fresh Water Fish 96 hours 1600 mg/l
EC50: Algae 72 hours >100 mg/l

2,4-Dichlorophenoxyacetic Acid: LC50: fathead minnow 96 Hour 227 mg/l
EC50: green algae 96 hour 24.2 mg/l

Lactose: No data available.

Persistence and degradability
Sodium Sulfate: Not relevant for inorganic substances.

Bentonite: Not relevant for inorganic substances.

2,4-Dichlorophenoxyacetic Acid: Biodegradability:
Material is readily biodegradable. Passes OECD test(s) for ready biodegradability.
10-day Window: Pass
Bio degradation: 99 %
Exposure time: 28 d
Method: OECD Test Guideline 301F or Equivalent

Lactose: Biodegradable (No data available.)

Bioaccumulative potential
Sodium Sulfate: BCF 0.5 predicted using EPI Suite program. Very low, does not suggest any concern.

Bentonite: Will not bio accumulate.

2,4-Dichlorophenoxyacetic Acid: BCF <100 Low potential for bio accumulation.

Lactose: No data available.

Mobility in soil
Sodium Sulfate: Soluble expected to move with water in soil.

Bentonite: Poor solubility, low mobility in soil.

2,4-Dichlorophenoxyacetic Acid: Potential for mobility in soil. (Koc between 0 and 50).

Lactose: No data available.

Other adverse effects
No other adverse environmental effects from this mixture.

SECTION 13: Disposal considerations

Disposal of the product
Safety Data Sheet
Aquacide Pellets

Dispose of contents/container in accordance with the local, regional, national regulations.

Disposal of contaminated packaging
Offer for recycling if available. If recycling not available, then dispose of empty bag in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods

IATA
Not dangerous goods

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

Massachusetts Right To Know Components
Chemical name: 2,4-D
CAS number: 94-75-7

New Jersey Right To Know Components
Common name: 2,4-D
CAS number: 94-75-7

Pennsylvania Right To Know Components
Chemical name: Acetic acid, (2,4-dichlorophenoxy)-
CAS number: 94-75-7
