NOTES

Long before it was America's premier winegrowing region, Napa Valley was cattle country. Even as vineyards began their advance, cattle remained strong and herds were widespread throughout the valley. Today cattle can still be seen grazing the hillsides, picturesque reminders of a nearly forgotten heritage dating back two centuries. This bottling is in celebration of that history.

Our Napa Valley Cabernet Sauvignon is rich with varietal fruit. Aromas of black currant, anise and mint precede deep flavors of dark berries, black cherry and ripe plum. Worthy of special note is the earthy influence of the land that has generously supported a proud and diverse history of Napa Valley agriculture.
