

Method One

Carefully cut out the paper sizer below and cut a slit in the end for the ruler to slide through. Wrap the ruler around your finger with the numbers facing out and slide the end through the slit until it fits comfortably around your finger. The number on the ruler that lines up with the slit is your ring size.

Method Two

Before printing, make sure the page scaling is set to none in your printer settings. Measure the bar on the right and make sure it accurately measures two inches. If the measurement is inaccurate, review your printer settings and ensure you are printing at full size.

- Select a ring that fits the finger you are sizing it for and has a similar width.
- Place the ring over the circles and match the inside of the ring with the right circle.
- If the ring falls between two sizes, select the larger size.

Ring Sizes
