In 1934 Walter Ashford founded Ashford Handicrafts Ltd, a company that has become a world leader in the manufacture of quality spinning wheels, weaving looms and textile equipment.

Today we, together with our loyal team, have produced over 900,000 wheels and looms.

We use only the finest Beech hardwood, sourced from sustainably-managed forests with Forest Stewardship Council approval.

Our wheels, looms and carders are the result of more than 85 years' experience, customer feedback, research and development.

Available in natural wood or finished with eco-friendly water-based lacquer. They are designed to be simple, easy to assemble and finish, and fun to use.

At our woollen mill in Milton, New Zealand, we source and process high quality fleeces and fibres.

Experience the joy and pleasure of creating your own unique yarns, fabric, garments and homeware using our wheels, carders, looms, fibres and yarns. Relax knowing your crafts are sustainable, renewable and environmentally-friendly.

We strive to make our products accessible to all people. It gives us great pleasure to see them used throughout the world and through a common love of textile crafts that people experience a sense of community and inclusiveness.

Walter's grandson James Ashford and his husband David Lester, are now third generation owners of our family company and with the support of Richard and Elizabeth continue our tradition of providing high quality, affordable products and ongoing excellent service and support.

We invite you to join us and experience the wonderful world of the textile crafts.

wool sliver

Premium 100% pure New Zealand wool

Ashford wool sliver is 100% pure New Zealand wool. Our wool is grown on sheep farms in the South Island of New Zealand where the sheep graze on large grassy paddocks and are free from mulesing. We only use wool with good length that is free from breaks, has high bulk, brightness, low vegetable matter and is the correct micron. The wool is washed using a standard aqueous treatment with eco-friendly biodegradable detergent. Then in our very own woollen mill in Milton, our skilled staff ensure every process is to the highest standard. We start by dyeing the wool using ecologically-safe Oeko-Tex compliant dyes, then steam dry, card, gill, comb and finally wind into bumps. The sliver is then ready to use with no waste or preparation.

Choose from over 100 beautiful colours and delicious blends.

Choose from our range of wool sliver — available in Corriedale and Merino

Corriedale ~30 Micron. Soft wool for fine-medium spinning. Ideal for baby wear, woven, knitted, crocheted, felted garments and homeware.

Merino ~22 Micron. Very fine wool for fine spinning, knitting, felting, crochet and lace work.

Note: Due to the printing process there may be some variance in colour representation.

alpaca/merino

A luxurious blend of 30% baby alpaca and 70% New Zealand Merino. Alpaca is five times warmer than sheep wool and silky soft. The fine white 21.5 micron baby alpaca is blended with our 22 micron Merino to create a sumptuous blend available in seven beautiful heather colour ways and white.

silk/merino

A sumptuous fibre blend of 80% New Zealand Merino and 20% Mulberry silk. The fine 22 micron Merino and the lustre of the silk makes this a truly luxurious blend. Create fine, lacy and lightweight yarn for knitting or unique semi-worsted yarns for weaving.

cotton

Create your own beautiful hand dyed yarns. This introductory kit contains all you need to get started.

Four 10gm dyes - Fuchsia, Bright Yellow, Coal and Sapphire. Two 100gm skeins of yarn, instructions - including colour theory, colour recipes and a colour wheel. When made up the dyes will be enough to dye 4kg of yarn or fibre.

Ashford wool dyes are perfect for dyeing all protein fibres, yarns and even fabrics - as long as it is a protein fibre our dyes will dye it! You can use on Wool, Silk, Cashmere, Mohair, Angora, Llama, Alpaca, Vicuna, Feathers and any other protein fibre you can think of. The only mordant required is white vinegar. You can use the microwave method, stove top, slow cooker or steam methods for Ashford dyes.

dyes

100gm 10gm

Our dyes are for all protein fibres. They are easy to use, safe and comply with Oeko-Tex Standard 100. The colours are clean and vibrant and very economic. Because they are 100% concentrate you only need 10gm to dye 1kg of fibre. Use white vinegar or citric acid to fix the dyes. Have fun creating your own colours. Available in 10gm and 100gm.

CMYK colour kit Contains 4 x 10gm colours to create all the colours.
