

# SUGGESTED SETTS

Below are suggested sett for all Ashford yarns.

This is just a guideline we recommend you sample your yarns before completeing a project. Weave a small section and wash to see the finished results. The sett can vary depending on the weave structure you are using and the desired drape required on the final fabric.

e/cm = ends per centimetre

epi = ends per inch

Note - the metric setts have not been rounded up for the multi loom setts.

Yarn	Loose Plain Weave	Firm Plain Weave
<b>Rigid Heddle Looms</b> (Inc. Knitters and Samplelt's)		
	Reed	Reed
Ashford Tekapo 8 Ply Wool	30/10cm (7.5epi)	40/10cm (10epi)
