Warning: The panel system configuration that this product is installed on must conform to the panel manufacturer's Stability and Loading Guidelines. Failure to follow the guidelines may result in serious injury and/or property damage.

Caution: This Product Must be Mounted to a Vertical Surface. Failure to follow this instruction may result in serious injury and/or property damage.

The JUV Panel Worksurface can only be installed on the following Panel Systems in a "U" shaped configuration, with return panels on the worksurface mounted side: Hayworth Compose, Allsteel Terrace, Steelcase Answer, Herman Miller Canvas. No other items (shelves, stackers, etc) can be installed on these panels. The JUV Panel Worksurface configuration will have minimum and maximum requirements for the height and width of the rear panel and the return panels.

Rear panel height: min 50" (1270 mm), max 72" (1829 mm)

Rear panel width: min 36" (914 mm), max 60" (1524 mm)

Return panel height: min 30" (762 mm), max 72" (1829 mm)

Return panel depth: min = worksurface depth, no max

For Commercial Use Only.

Accessories (Ordered Separately)

1. JUV Single Electrical Kit for Sit-Stand Desk

2. JUV Laminate Insert

Advertencia: la configuración del sistema de paneles sobre el que se instala este producto debe cumplir con las Directrices de estabilidad y carga del fabricante del panel. El incumplimiento de estas directrices puede producir lesiones graves o daños materiales.

Precaución: este producto debe montarse sobre una superficie vertical. El incumplimiento de estas instrucciones puede producir lesiones graves o daños materiales.

3

1. Loosen top brackets.
 2. Attach brackets to panel.
 3. Tighten brackets to secure.
1. Afloje las abrazaderas superiores.
 2. Fije las abrazaderas al panel.
 3. Apriete las abrazaderas para asegurarlas.
1. Desserrez les supports supérieurs.
 2. Fixez les supports au panneau.
 3. Serrer les supports pour bien les fixer.

**1****2****3**

4

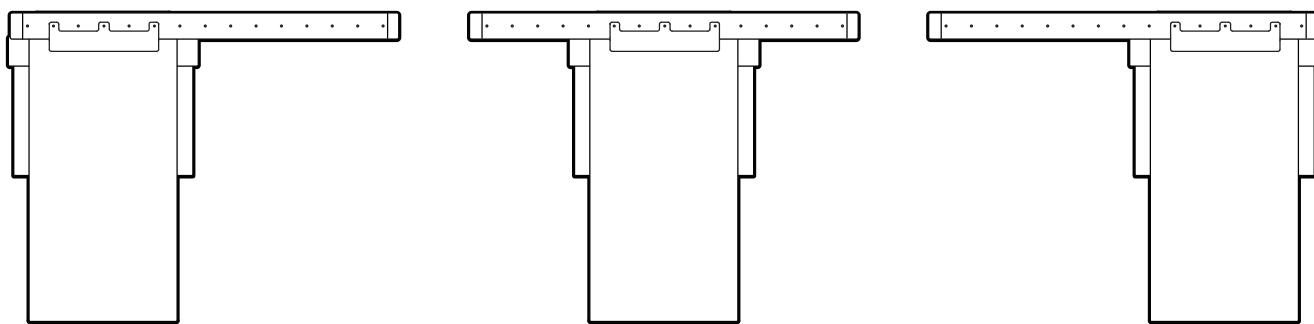

Attach top bar to lift engine.
Fije la barra superior al motor de elevación.
Fixez la barre supérieure au moteur de levage.

Attach lift engine to the appropriate set of holes on the top bar to achieve your desired horizontal location on the panel.

Conecte el motor de elevación al juego de orificios adecuado situado en la barra superior para lograr la ubicación horizontal deseada en el panel.

Fixez le moteur de levage à l'ensemble de trous de la barre supérieure afin d'obtenir le positionnement horizontal désiré sur le panneau.

5

Hook lift engine onto bottom bar while top bar hooks onto top brackets (2 person lift).

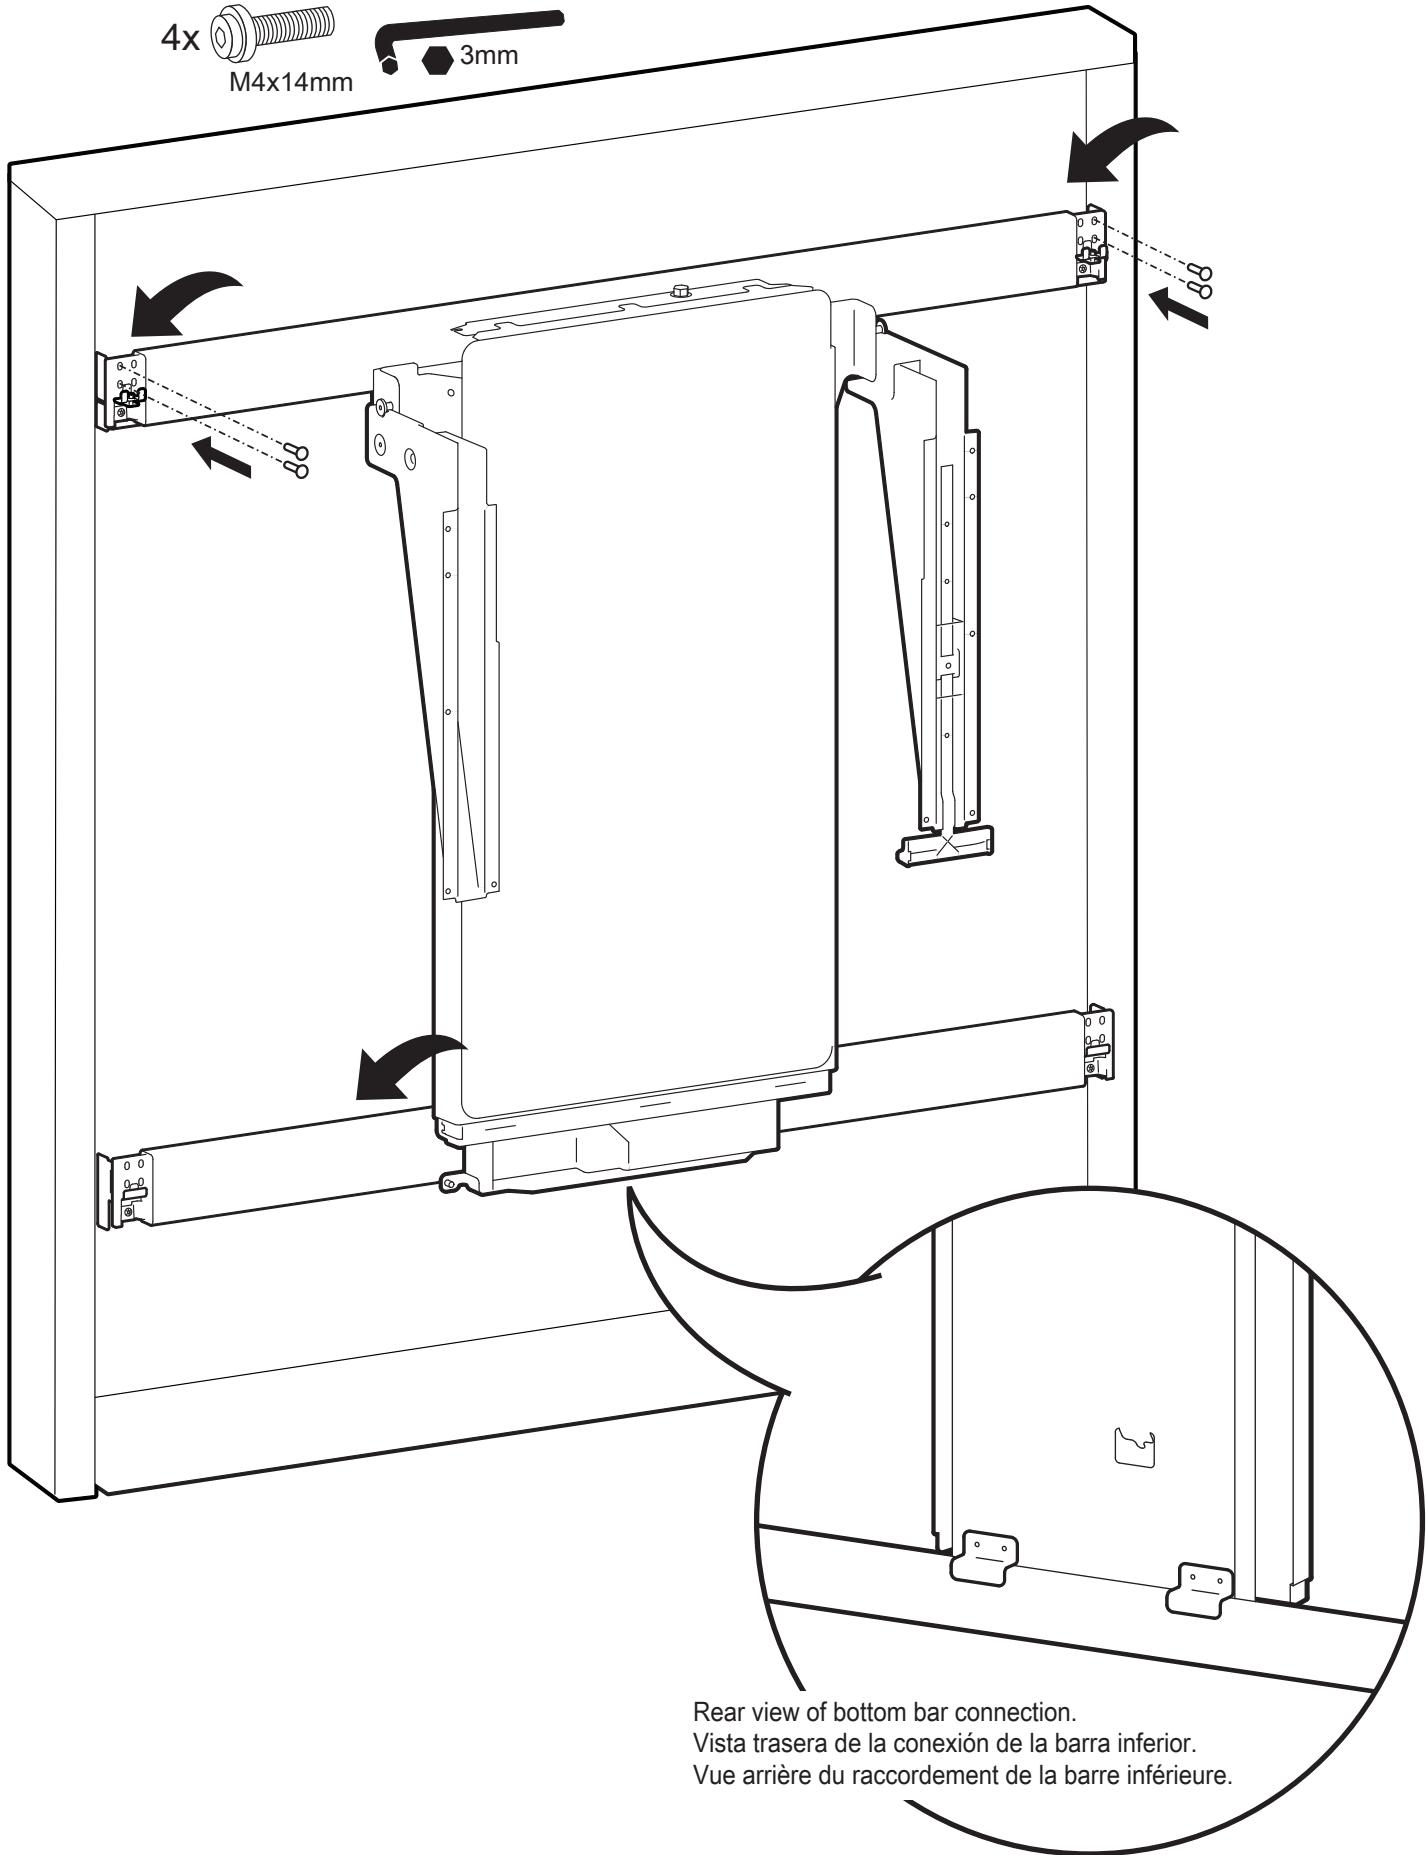

Enganche el motor a la barra inferior mientras que la barra superior se engancha a las abrazaderas superiores (elevación para 2 personas).

Accrochez le moteur de levage à la barre inférieure tandis que la barre supérieure s'accroche aux supports supérieurs (levage par 2 personnes).

Important! You will need to adjust this product after installation is complete. Make sure all your equipment is properly installed on the product before attempting adjustments. This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

¡Importante! Tendrá que ajustar este producto una vez que haya terminado la instalación. Asegúrese de que todo su equipo esté instalado correctamente en el producto antes de intentar llevar a cabo algún ajuste. Este producto debe poder moverse de manera fácil y firme dentro de la amplitud de movimiento permitida y mantenerse donde usted lo fije. Si los movimientos son demasiado fáciles o difíciles o si el producto no se mantiene en las posiciones deseadas, siga las instrucciones de ajuste para conseguir movimientos suaves y fáciles. Dependiendo del producto y el ajuste, es posible que deba hacer muchos intentos hasta poder observar la diferencia. Cada vez que añada o retire equipos de este producto y que produzca un cambio en el peso de la carga, debe repetir estos pasos de ajuste para garantizar un funcionamiento seguro y óptimo.

Important ! Vous devez ajuster le produit une fois l'installation terminée. Assurez-vous que l'équipement est correctement installé sur le produit avant de procéder aux ajustements. Ce produit doit pouvoir être déplacé sans difficulté sur toute la plage de mouvement et rester immobilisé à l'endroit où il est réglé. Si le mouvement est trop facile ou trop difficile, ou si le produit ne reste pas dans les positions souhaitées, procédez selon les instructions de réglage pour harmoniser les mouvements. En fonction de votre produit et du réglage, plusieurs tours peuvent s'avérer nécessaire pour remarquer la différence. Chaque fois qu'une pièce d'équipement est ajoutée ou retirée de ce produit, affectant en conséquence le poids de la charge montée, vous devez répéter ces étapes de réglage afin de garantir une utilisation sécurisée et optimale du produit.

Increase Lift Strength

If the mounted weight is too heavy or this product does not stay up when raised, then you'll need to increase Lift Strength:

Decrease Lift Strength

If the mounted weight is too light or this product does not stay down when lowered, then you'll need to decrease Lift Strength:

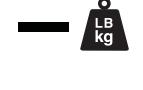

Aumentar la fuerza de elevación

Si el peso colocado es demasiado o si el producto no se mantiene arriba cuando se eleva, debe aumentar la fuerza de elevación:

Reducir la fuerza de elevación

Si el peso colocado es muy poco o si el producto no se mantiene abajo cuando se baja, tendrá que disminuir la fuerza de elevación:

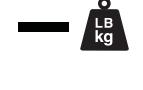

Augmenter la force de levage

Si le poids installé est trop lourd ou si le produit ne reste pas en place une fois soulevé, vous devez augmenter la force de levage :

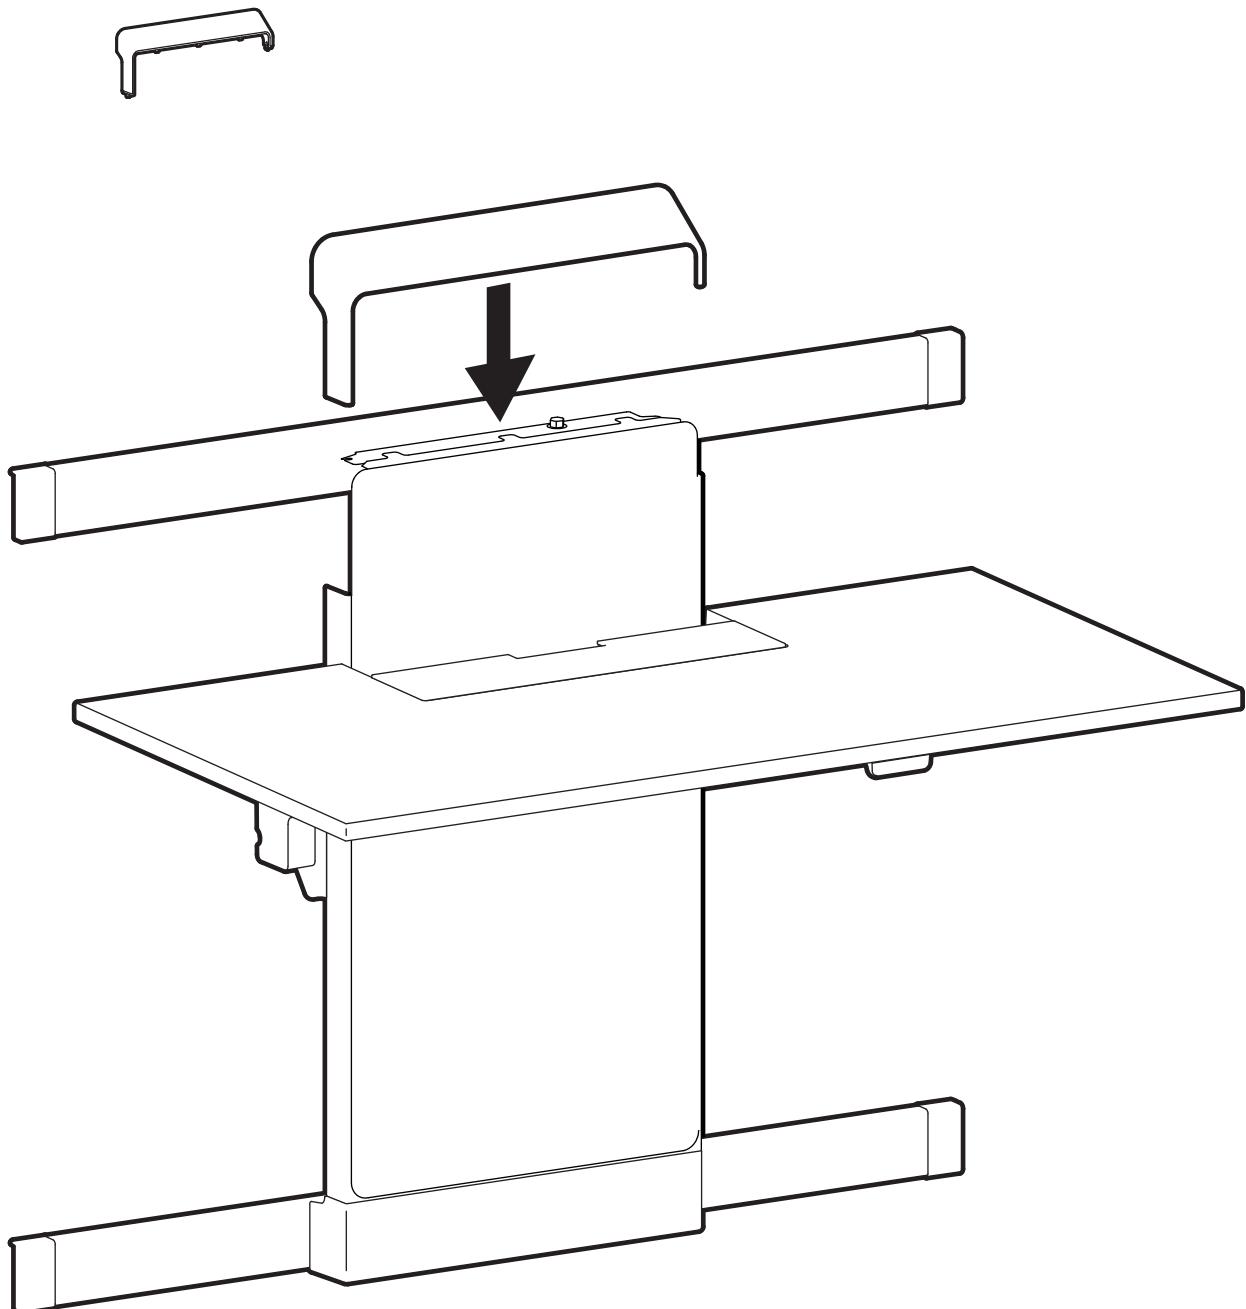

Réduire la force de levage

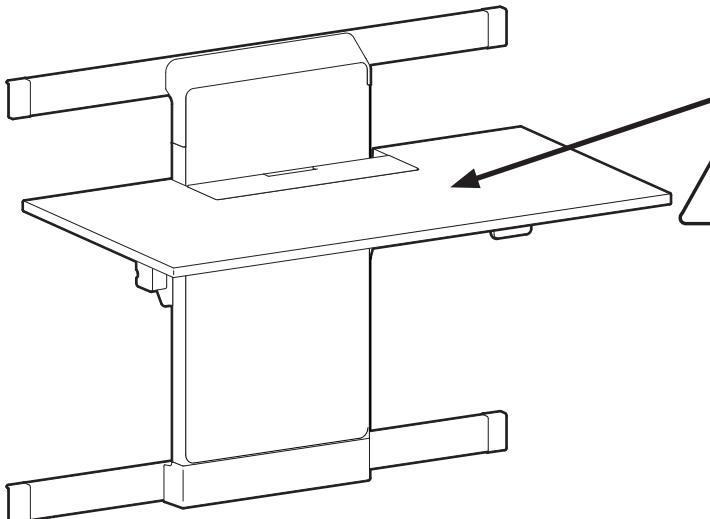

Si le poids installé est trop faible ou si le produit ne reste pas en place une fois abaissé, vous devez réduire la force de levage :

16

Attach top cover.
Fije la cubierta superior.
Fixez la protection supérieure.

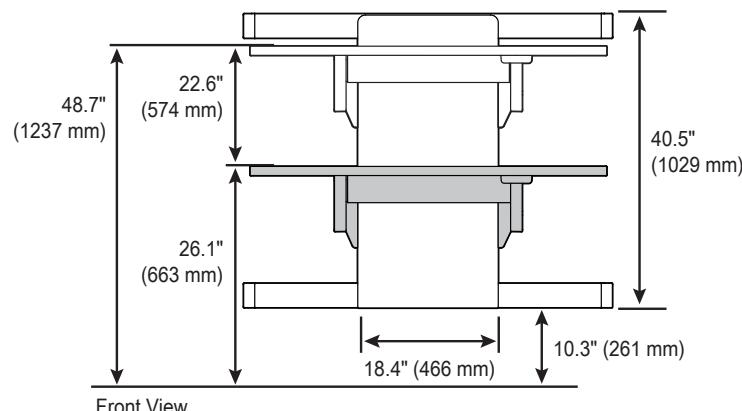

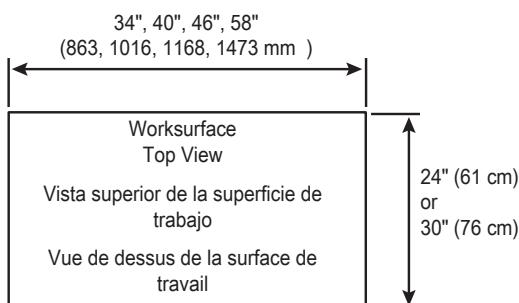

< 40 lbs. (18.14 kg)

CAUTION: DO NOT EXCEED MAXIMUM LISTED WEIGHT CAPACITY. SERIOUS INJURY OR PROPERTY DAMAGE MAY OCCUR!

PRECAUCIÓN: NO SUPERE LA CAPACIDAD DE PESO MÁXIMA INDICADA. PODRÍA OCURRIR DAÑOS MATERIALES GRAVES O LESIONES FÍSICAS.

ATTENTION : NE PAS DÉPASSER LA CAPACITÉ NOMINALE MAXIMALE MENTIONNÉE. DE SÉRIEUSES BLESSURES OU DES DOMMAGES MATÉRIELS POURRAIENT SE PRODUIRE !
