

M Prone Leg Curl Model MLPC

What Users See

Clean, pleasing sight lines through low profile, fully shrouded 5' towers, all of uniform height
 Convenient integrated rubber trays for storage of water bottle, keys, MP3, etc.
 Easily recognizable orange adjustment knobs

What Users Feel

A natural path of motion from precise pivot point alignment
 Minimized back stress from divergent hip and chest pads
 A strength profile that replicates the users with the variable cam
 Direct smooth feel from a direct drive Kevlar belt
 Reduced starting resistance and effortless adjustability from counterbalanced arm
 Lighter resistance increases through drop down weight increment system

What Users Trust

Maintenance free durability from roller bearings over solid shafts at pivot points
 Indestructible solid steel weight plates riding on 3/4 inch solid steel chrome plated guide rods
 Durable grips from non-absorbing rubber compound secured with aluminum collars
 Magnetic attached weight stack pin with breakaway lanyard to prevent loss or damage
 A 30 year culture of long term durability and customer service.
