Bigger Faster Stronger has a staff of 35 clinicians who conduct athletic training clinics in every state and abroad. Last year BFS gave over 400 clinics! For the past 35 + years BFS has helped teams from every level come out on top! Schools that host a BFS Clinic will average two more football wins, three more basketball wins, three more baseball wins and 20 percent more overall victories for all their athletic teams. Often this happens in the very next school year!
