Limitation of Liability (Read before use)

Failure to read or follow instructions, improper or careless use may lead to personal injury. Arizer and affiliated companies will not assume any liability for injury or damage resulting from the use or misuse of this device. Due to the fragility and nature of glass parts, glass and affiliated companies are not responsible for cues or damage sustained from breakage. Arizer and affiliated companies are not liable for damages associated with breaking hot parts. Arizer and affiliated companies are not liable for failure to comply with these warnings and safety guidelines. By purchasing this product the buyer assumes all risks associated with breakage. If you do not agree with these conditions, return the product immediately before use.

This product is intended for use with the botanicals described herein. Arizer and affiliated companies are not liable for use with other than those botanicals described herein. Company’s liability for damages in connection with the product and its parts shall not exceed the purchase price of the product.

IMPORTANT - Obey local laws. Not all essential oils, botanicals and herbs are legal for use in every Country or State. Check your local, state, federal and provincial laws before ordering more. The device is meant for legal use only.

Cautions, Disclaimers & Warnings (Read before use)

First Time Use - Examine box contents, ensure all included parts are in good condition, not damaged from shipping. Check glass parts for cracks or breakage. Packaging materials, bags, & small parts may pose a choking hazard. Keep out of reach of children, teens, and pets.

Warning - Hot Parts - Handle hot parts and glass parts with care. Do not place hot parts on non-heat safe surfaces. Carefully adjust protective heat-realtive silicone caps to safely cover hot end of glass parts. Allow heating unit and hot parts to cool before placing in storage. Do not store any hot parts on a surface where heat can conduct. Parts are made from strong scientific quality borosilicate glass, but all borosilicate glass is breakable so handle with care and caution. Avoid exposure to hot surfaces to prevent cracking and breaking. If glass is damaged or broken, remove for cooling, check and replace before use. Do not expose hot glass parts to cold water or extreme temperature change as this may result in cracking or breaking.

Product contains electrical and delicate parts - do not drop. Do not expose to extreme environmental or operate the product if it is in contact with water or liquids. Do not attempt to repair the unit or place near flammable material. Do not disassemble or replace the unit and consults to exceed temperatures. Do not open the unit - doing so may cause electro shock and voids warranty. Do not leave the unit turned on and unattended.

Cautions, Disclaimers & Warnings (Continued)

The information contained in this manual is an aid in understanding the service, features, and performance. All other concerns or questions related to the preparation and use of this product should be directed to a professional or by the manufacturer. The information is not intended in any way to replace or supersede professional consultations.

Safety Certifications

Equipped for worldwide use with an input capacity of 110-240V and international safety certifications.

What’s Included

1 x Solo II Multi Purpose Micro-Heater
1 x Charger / Power Adapter
1 x Glass Amara Tube (60mm)
1 x Glass Amara Tube (110mm)
1 x Glass Amara Dish
1 x Belt-Clip Carry Case
2 x Glass Stem Caps
1 x Stainless Steel Stirring Tool
1 x Stainless Steel Stirring Caps
3 x Simple Aromatic Botanicals
1 x Owner’s Manual

Control Panel

The Control Panel consists of the OLED display with three buttons: the Menu / Down button and the Up / Up (Down / Down) button. Use the Menu button to navigate through the different settings and the Up / Down buttons to adjust them.

Temperature Settings - The Solo II’s optimized heating system warms up fast and has a wide temperature range of 30°C - 320°C (86°F - 647°F). The temperature is adjustable in 5-degree increments and 1-degree increments.

Audio / Beep - The Audio / Beep function has three volume settings and can be turned on and off. If the Audio / Beep is activated, a beep will be heard when the Solo II is powered on or off. If the Audio / Beep is deactivated, the Solo II remains silent when powered on or off.

Power-On Delay - This power-on delay feature ensures you don’t accidentally turn on the unit and has three settings for your convenience: 4 Seconds, 8 Seconds, and 15 Seconds. The default setting is 4 seconds.

Automatic Shut-Off Timer - The automatic shut-off timer function ensures you don’t forget to turn off the unit and help conserve battery life. The shutoff timer can be adjusted between 3-15 minutes in one-minute increments. The default setting is 15 minutes.

Contrast or Brightness - The Solo II display can be set to 0 or 1000. The default setting is 10.

Display Brightness - The Solo II display has three brightness settings: low, medium, and high. The default setting is medium.
Operation

(1) Load Glass Aroma Tube
Put some coarse-ground botanicals in a small container then gently push and slightly twist the glass stem into the container to fill the dish. Do not press too hard or place too tightly. Using the Glass Aroma Tube this way takes advantage of its design ensuring easy maintenance and optimal performance.

(2) Insert the Glass Aroma Tube
Preheat unit before inserting any tubes. You can carry pre-loaded Glass Aroma Tubes in your Soso 3 Case for quick and easy vaping on-the-go.

(3) Press and hold the (A) & (B) buttons to turn on the unit.
A timer will count down on the OLED screen showing the power-on delay and a greasing message is displayed when the unit is powered on.

(4) Operation (Continued)

Aromatherapy

(1) Load the Glass Aroma Dish with some dried Aromatic Botanicals and 7 or 8 drops of essential oil.

(2) Press and hold the (A) & (B) buttons to turn on the unit.

(3) Use the (A) and (B) buttons to adjust the temperature from 50°C - 100°C (122°F - 212°F).

(4) Hold below your nose and gently inhale. Inhale the pleasing aromas as the botanicals are warmed. Relax & Breathe.

Battery Performance

Acor Batteries meet rigorous quality standards. With normal use they will last for hundreds of charge cycles before losing any capacity. Exposing the unit can result in battery damage that may limit or reduce the battery capacity, so it is important to handle your unit carefully.

Battery Charge
Depending on the temperature setting and general usage patterns the Soso 3 battery will typically last for 3 hours of use per charge. The battery will take 3 hours to fully charge, or longer if you use it while charging.

Use When Charging
If your battery is charging but with the Soso 3, you don't have to wait for the battery to be fully charged before you can use it. Just pull out the battery 5-10 minutes and then you can use the battery again.

Battery Expansion
The Soso 3 and Soso 5 have built-in protections to prevent the battery from being overcharged or over-discharged. To conserve battery life, use the Soso 3 in a temperature-controlled environment and use lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures.

Available Accessories

Spare Glass Aroma Tubes, chargers, parts, 6 accessories are available on our website, www.arizer.com.
