

Arktis Combat Trousers Size Guide

Arktis combat trousers are very adjustable. The 'Combat Waist System' allows for 1-2 inches of adjustment bigger or smaller.

Inside leg length measurements are measured from the crotch seam to the ankle hem.

It's always best to measure an existing pair of trousers to get an accurate size.

Waist Sizes

Waist Size Inches	28"	30"	32"	34"	36"	38"	40"	42"	44"	46"
