

Arktis Smock Size Guide

The Arktis smocks have a fully integrated adjustment system. They are designed to cater to all individual sizes & body armour needs. Featuring a fully adjustable waist, hem, hood and cuff.

It's always best to measure an existing garment to get an accurate size.

Note: Our garments are hand made by people not robots, please allow a 1.5cm tolerance to measurements.

The 'wearer's chest' size is measured to allow for additional layers. If you want a tighter/ tailored fit you might want to take a size smaller.

Size	XS	S	M	L	XL	XXL	XXXL
Wearers Chest (Including Layers)	81-86cm	91-96cm	101-106cm	112-117cm	122-127cm	132-137cm	142-147cm
