Y7 lectern - Collapsible

Modern lecterns - Customizable

"...the lecterns we've ordered from Urbann have proven to be reliable, study, and professional looking. The customer service is also exceptional, which is another reason we've ordered from them multiple times."

Chad Lewis, Seattle

Modernize your image and enjoy

You have many events outside your organization? You need a lightweight lectern that you can carry alone? That can be dismantled to take less space? We have the perfect solution for you. This dismountable model requires no tools! 4 Simple knobs let you put it up in 30 seconds. A front removable plate let you display a logo. You can even roll it away with the optional carrying case with wheels and retractable handle! Great design, great solution.

This is a perfect podium for giving conferences, public presentations or speaches. Simple to use, lots of nice options. (Assembly required).

This carrying case with retractable handle will let you store and move your lectern easily.

Solutions for wiring

XLR Audio Cable (N25)
Use this 8m (25') XLR audio cable to connect the lectern to your sound system.

Customization

The Simplest and Most Powerful Customization System

Customization
Fully customize your lectern, anytime

Easily customize your lectern by getting one or more modules, from a microphone connector to a power outlet.

How does it work
The Most User-Friendly Customization System

You get complete control: we have prepared the lectern's top shelf with 2 to 4 slots that can accept any install-yourself module + a central location for a reading lamp. You decide what you want to install and where you install it.
Installation of any module is a snap! No technical skills required, no drilling, no welding.

A welcomed relief
No technical headaches, customize anytime

Everything is simpler: You can adapt to any changes. No headaches on your actual needs and no guessing about your future needs! You will always be able to configure the lectern.

No obligations
Don't need any customization? You are still covered

Blank plates neatly covering the slots are included with any lectern. Your lectern always looks sharp and nice.

Check the lectern's description to see how many modules it can accept (The Y5 lectern can not accept install-yourself modules).
