

A WINNING COMBINATION

he Ettore BackFlip combo squeegee and washer is targeted for the "do-it-yourselfer" who wants the shine and glow of newly cleaned windows without the hassle. The BackFlip is a squeegee and washer that can be used individually or with the click of a button can transform into two different time saving combinations. The BackFlip squeegees are made with the same rubber used by professionals for over 70 years. The washers, used to wash the glass before you squeegee, feature a machine washable microfiber sleeve for lint-free cleaning. The packaging attracts homeowners who are serious about home improvement and maintenance.

Versatile and **Effective**

4 Tools in 1

Two combination tools or separate squeegee and scrubber.

Professional Squeegee

Professional squeegee features natural rubber blade and stainless steel channel.

Tough Microfiber Washer

Absorbs seven times its weight, providing superior dirt absorption and release of cleaning solution.

Environmentally Friendly
