

AQUACLEAN™

AQUACLEAN *NEW* Carbon Fiber Pole System

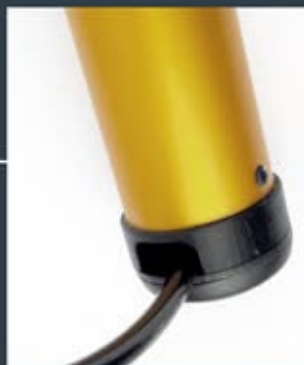

Carbon Fiber Pole System

- Choose between 6 pole length options, starting from 10' to a collapsed length of 47"
- Ideal sizes for ground level work and all sizes easily transport in smaller vehicles
- Carbon fiber design provides even greater rigidity than any pole on the market - Perfect for effortless brush control
- Each pole has an aluminum outer tube to offer added strength while protecting the expensive carbon fiber inner poles

Durable Plastic/Rubber Endcap

- Prevents accidental damage to the end of the pole
- Features a side aperture for the hose exit to prevent hose kinking and damage

Multifunction Clamping System

- All clamps positively lock each section - preventing unintended pole collapse
- No glueing - if you ever need to replace a pole section or a clamp they easily bolt on with ease
- Each clamp has a tapered bottom to prevent getting caught on window sills or branches
- The Tapered bottom keeps the clamps separated to prevent pinch points
- Each clamp has easy but positive locking tabs that are simple to lock and unlock, but won't release unintentionally

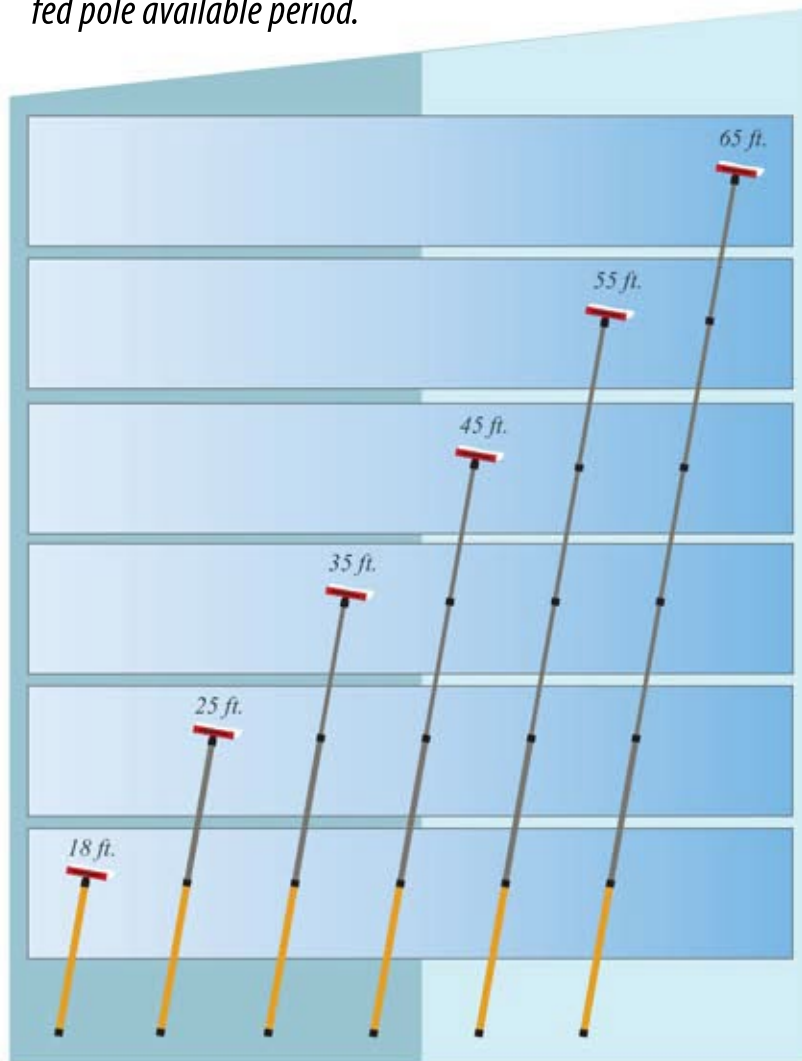

Aquaclean Brushes

- These brushes combine nylon and boar's hair bristles that leave glass perfectly clean.
- All water jets are made from high quality brass fittings.

AQUACLEAN™

AQUACLEAN New Carbon Fiber Pole systems are designed to deliver the precise balance between rigidity and weight. Durability and strength are never compromised. This is simply the best water fed pole available period.

**All AQUACLEAN Poles includes a 14" brush, angle adapter and hose.*

PRODUCT NO.	DESCRIPTION
7218	18 ft. Aluminum/Carbonfiber Pole
7225	25 ft. Aluminum/Carbonfiber Pole
7235	35 ft. Aluminum/Carbonfiber Pole
7245	45 ft. Aluminum/High Modulus Pole
7255	55 ft. Aluminum/High Modulus Pole
7265	65 ft. Aluminum/High Modulus Pole
