The Professional's Edge Since 1936

WINDOW
CLEANING
REDEFINED

Ettore revolutionized the world of window cleaning in 1936 with the creation of the single blade squeegee. The next revolution has begun. Introducing the *Contour Pro+* Squeegee. It's the only tool you will ever need. This new, ergonomically designed squeegee combines four time-saving features into one amazing tool that will make window cleaning faster, easier, and more profitable.

This revolutionary new squeegee uses a patented suspension system that keeps the rubber's edge on the

glass, automatically adjusting to the angle you need as you move through the stroke allowing you to close out deep window sills with ease. This consistent and even pressure also increases the working life of the rubber blade.

The built in 0° degree straight angle feature is perfect for atriums, solariums, skylights and allows for fanning with a pole. Plus the improved *Quick Release™* device makes for fast channel adjustments with the flick of a thumb. Add the benefits of our Super System™ pivoting head to get into odd angles and you have one powerful tool.

Four great time-saving features, one amazing tool. *Contour Pro+* Squeegee. The Art of Window Cleaning Redefined.

ContourPro+™
SQUEEGEE

ContourPro+™

Four Time-Saving Features in One Amazing Squeegee

FASTER. EASIER. MORE PROFITABLE.

Patented Suspension System

- Superior for closing out deep sill windows
- Adjustable spring tension- customizes to user preference
- Consistent even pressure eliminating streaks and rubber lasts longer

Turn dial clockwise to increase spring tension.

Improved Quick Release™

- Allows for easy channel adjustment or removal
- Integrated low profile design prevents accidental channel release
- While locked in 0° position, lift Quick Release lever and slide channel

Super System™

- Ideal for cleaning irregular shaped glass
- Adjusts to angle without lifting off glass
- Pivots horizontally 180°

Additional Features

- Ergonomic handle means less fatigue
- Comfort over molded grip ensures good grip even when wet
- Fits all Ettore extension poles

0° Feature

- With the flip of a lever, squeegee transforms to a 0° straight angle
- Perfect for cleaning overhead glass in atriums eliminating back strain
- Allows fanning with a pole

Hyper-extend and depress lever to lock into 0° position
