

ETTORE SUPER SYSTEM INSTRUCTIONS

Perfected by Ettore Steccone, the world's leading manufacturer of squeegees. Over 75 years as a window cleaner and a manufacturer.

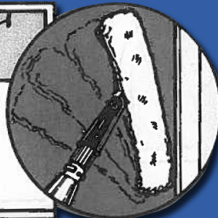

WASH ROUNDED GLASS WITH EASE.

Arched frames, so difficult with a normal scrubber are a snap with the SS Golden Glove.

REACH ENTIRE SPANS OF GLASS WITH HARDLY MOVING.

No longer must the window cleaner move back and forth to reach every corner of a span of glass. Just by standing on one spot, with the Ettore Reach-c-h poles and SS Golden Glove, and twisting the handle of the pole the SS Scrubber will adjust to every angle needed to clean the glass.

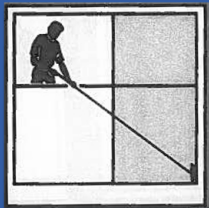

Super System Scrubber

Using the Golden Glove Supertuff Cover with the Reach Telescopic Pole allows window-scrubbing from the most convenient location. No bending, moving of objects or ladder-climbing is required. Just stand in one spot and rotate the head to clean and entire span of glass. The SS Scrubber is set correctly, kept slightly looser than the SS Squeegee, to pivot easily.

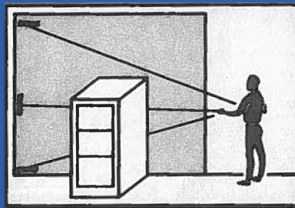

WORK OVER OBJECTS.

Clean around and over objects that normally would have to be moved to get to the glass.

CLEAN THE IMPOSSIBLE.

Reach windows that were once impossible to reach.

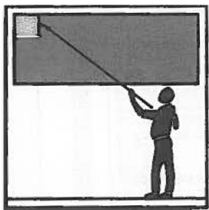

SCRUB GLASS WITHOUT INTERFERING WITH FURNITURE.

When cleaning windows on the inside there is now no need to move the furniture. Just go around it.

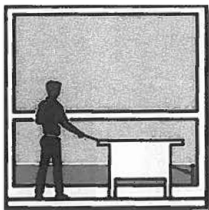

Super System Squeegee

Combined with the Rea-c-h Telescopic Pole, instant angle adjustment can be obtained by applying slight pressure to the squeegee against by hand. This feature enables the window cleaner to clean extremely difficult angles from the most convenient location. The SS Squeegee should be tight. To tighten, turn the screw in the middle of the handle.

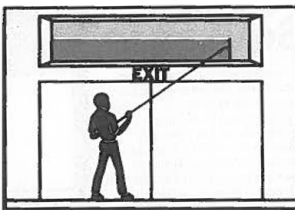

CLEAN MORE EFFICIENTLY.

Leave less streaks by pulling across the glass instead of straight down.

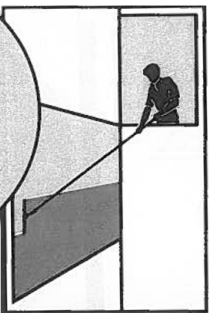

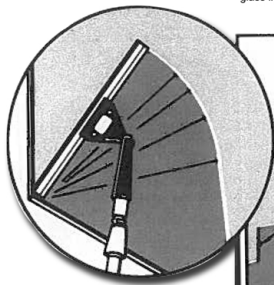

WORK AROUND ALL OBSTABLES.

No more need to bend over, move furniture. Just work around it!

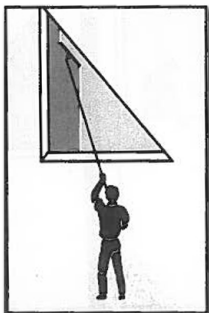

SQUEEGEE THE LAST 12 INCHES OF THE BOTTOM OF THE WINDOW.

The SS Squeegee allows you to clean above the window ledge, an area that normally has never been cleaned.

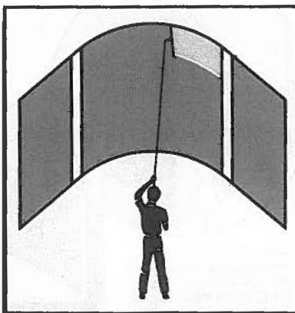

CLEAN WINDOWS ON FLOORS BELOW.

With the SS Squeegee you can reach windows below the floor you're standing on.

EFFECTIVELY SQUEEGEE WINDOW WITH ODD SHAPES.

Clean onto corners that were only possible with the use of a ladder.

CLEAN CURVED GLASS WITH EASE.

You can now clean curved glass with an extension pole and the SS Squeegee.
